Nature is Our Laboratory

Over 90 years of tradition
and trust continues

Hafiz Yusuf Dehlvi,
Founder Shama Group

Hakim Mohd. Ilyas Dehlvi - Mentor - Dehlvi Group

DEHLVI - A PROFILE

Over 90 Years of Tradition & Trust Continues....

Dehlvi - A brand that has been promoted by Hakim Mohsin Dehlvi, son of Mohd. Ilyas Dehlvi and grandson of the legendary Hafiz Mohammed Yusuf Dehlvi, founder of THE SHAMA GROUP. It was in 1978 that Mohsin Dehlvi joined his grandfathers' herbal manufacturing business, namely Bara Dawakhana (founded in 1926 and later renamed as Shama (U&A) Laboraories in the year 1956).

Following the footsteps of his illustrious grandfather, Hakim Mohsin Dehlvi has maintained strict quality and purity controls and has improved presentation and packaging, without in the least sacrificing the traditional values. Both the companies, **Dehlvi Naturals** and **Dehlvi Ambar Herbals Pvt. Ltd.**, and above all **Dehlvi Remedies Pvt. Ltd.**, draw their strength from their team of experienced manufacturing and practicing Hakims and Vaid (Arabic and Indian words, literally meaning physician). **Dehlvi**, has now become one of the most respected and reliable names in herbal medicines in India as well as in the International market.

With over 700 Herbal Health Care products, Toiletries and Dietary Supplements **Dehlvi** is waging a relentless war against all diseases afflicting humanity. The strict specifications set by the masters of Unani and Ayurvedic medicines are followed religiously. The products are registered as per norms prescribed by the Drug Controller of India and are GMP certified.

Dehlvi is continuously doing research and development on new formulations. With continuous improvements and research in processing and manufacturing techniques, **Dehlvi** brings you tried and trusted formulations, improved with modern research. Our medicines have not been tested on animals and we do not use child labour.

Herbal Medicines are characterised by lack of standardization due to which the effects are inconsistent. To remove these deficiencies **Dehlvi** is doing in-depth research and quality control. The Company conducts primary research on each of its formulations for a period of about two years before introducing the product to the consumers. The Companies strongly believe that research and development is a continuous, ongoing and unending process. A competent team of Hakims and Vaid implement and monitor the quality of our products.

Doctors, Hakims and Vaid prescribe the medicines with full confidence as they come from **Dehlvi**.

Dehlvi has been awarded the **Hakim Ajmal Khan Global Award** in the year 1997 for “**Best Unani Manufacturing Company**” and in the year 2010 for “**Best Manufacturing Company for Modernizing Unani System of Medicine**”.

Realising the vast experience of over 40 years in Unani of Hakim Mohsin Dehlvi, Ministry of AYUSH, Govt. of India appointed him as a Member of Ayurveda, Siddha and Unani Drugs Technical Advisory Board (ASUDTAB) in April 2015 and in 2018 he was appointed as a Member of the Scientific Body of Pharmacopoea Commission of Indian Medicine and Homoeopathy, Ministry of AYUSH, Govt. of India.

Currently **Dehlvi** has its presence in **UK, USA, South Africa, Hungary, Malaysia, Maldives, Germany, Kenya, Somalia, Romania, France and Ukraine**, and many more to follow.

Diseases of the Nervous System

Headache, Migraine and Vertigo

Habbe Ayarij

Useful in chronic headaches, epilepsy and other diseases of the brain. Cleans the brain from toxic substances.

Dosage: 3 g (approx. 24 pills) at night with 125 ml Arq Gaozaban. In the morning after awakening, give a purgative (Qurs Mulayyan or Itrefal Mulayyan) for cleaning the stomach.

Habbe Banafsha

Removes headaches caused due to intensity of heat. Useful in asthma and shortness of breath.

Dosage: 1 or 2 pills at night with water.

Habbe Shifa

Useful in headache and fever.

Dosage: One pill in the morning on an empty stomach with water.

Itrefal Kishnizi

Strengthens the brain, nervous system and intestines. Removes constipation and its regular use relieves chronic cold. Also relieves headaches, dizziness, redness of the eyes and earaches caused due to cold.

Dosage: 5 to 10 g at night with lukewarm milk or water.

Itrefal Zamani

Useful in chronic cold and catarrh, headache, hemicrania, migraine, dizziness, colic and melancholia. Also removes constipation and soothes nervous disorders.

Dosage: 5 to 10 g at night with lukewarm milk or water. For chronic constipation 10 to 20 g may be given at night.

MigraCap

Useful in migraine which consists of a severe, throbbing headache, usually located on one side of the head. The pain begins suddenly in and around the eye or temple, spreading to one or both sides of the head and often accompanied by loss of appetite, nausea, vomiting, sensitivity to sound, light and smell, or dislike for food.

Dosage: 1 or 2 capsules twice daily with water, once preferably before sunrise.

Qurs Musakkin

Gives immediate relief in headaches, body-aches, muscle and joint pains.

Dosage: 1 tablet as and when required with water. More effective if given with 5 g. Khamira Gaozaban Ambari Jawaharwala or Dehlvi Gaozabani Ambari Jawahri-SF.

Roghan Banafsha

Useful in headaches. Removes dryness of brain and induces sleep.

Usage: Rub gently on the scalp and forehead.

Roghan Kaddu

Relieves headache due to intensity of heat. Removes dryness of brain and induces sleep.

Usage: Rub gently on the scalp and forehead. Instill a drop or two in the nose and ears.

Roghan Kahu

Relieves headache due to intensity of heat. Removes dryness of brain and induces sleep.

Usage: Rub gently on the scalp and forehead. Instill a drop or two in the nose and ears.

Note: Arq Ajeeb, Dawaul Misk Motadil, Dehlvi Blue Balm, Dehlvi Gaozabani Ambar-SF, Dehlvi Gaozabani Ambari Jawahri-SF, Dehlvi Itrefal Jaroob Dimagh-SF, Dehlvi Jaroob Dimagh (Ustkhuddus) Capsules, Dehlvi Khamira Moti-SF, Habbe Jawahar, Itrefal Mulayyan, Itrefal Ustkhuddus, Khamira Gaozaban Ambari, Khamira Gaozaban Ambari Jawaharwala, Khamira Marwareed, Kushta Marjan, Kushta Marjan Jawahar, Lavender Capsules, Musli Kesar Capsules, Musli Kesar Prash, Musli Kesar Prash-SF, Nauras and Roghan Gul are also useful in "Headache, Migraine and Vertigo".

Cerebral Atony

Dehlvi Gaozabani Ambar-SF

The same benefits of Khamira Gaozaban Ambari in a sugar free form.

Dosage: 5 to 10 g in the morning on an empty stomach or as and when required.

Dehlvi Gaozabani Ambari Jawahri-SF

The same benefits of Khamira Gaozaban Ambari Jawaharwala in a sugar free form.

Dosage: 5 g in the morning on an empty stomach or as and when required.

Itrefal Muqavvi Dimagh

Strengthens the brain and improves eyesight. Useful in chronic cold and headache.

Dosage: 5 to 10 g at night with lukewarm milk or water.

Khamira Gaozaban Ambari

Strengthens the heart and brain. Relieves heart palpitation and anxiety. Also improves memory and eyesight. Daily use is very useful for those who do excessive mental work.

Dosage: 5 to 10 g in the morning on an empty stomach or as and when required.

Khamira Gaozaban Ambari Jawaharwala

An invigorating tonic for the brain and heart. Its quick effect removes general debility and melancholia. It is very

useful for those who do excessive mental work. Improves eyesight and memory.

Dosage: 5 g in the morning on an empty stomach or as and when required.

Khamira Gaozaban Sada

Strengthens the heart and brain. Relieves heart palpitation and anxiety and is useful in melancholia. Also improves eyesight.

Dosage: 10 g in the morning on an empty stomach or as and when required with water or 125 ml Arq Badiyan.

Roghan Badam Shirin

Rubbed on the scalp, it strengthens the brain, soothes tired nerves and induces sleep. When given orally, it removes dryness of the intestines and removes constipation.

Dosage: 5 ml to 10 ml to be rubbed on the scalp. 1 or 2 drops may be instilled in the nose and ears. For constipation, 5 ml to 10 ml with a glass of milk at night may be given.

Note: Amleena, Braini, Dehlvi Itrefal Jarob Dimagh-SF, Dehlvi Jarob Dimagh (Ustkhuddus) Capsules Habbe Amber Momyai, Itrefal Kishnizi, Itrefal Ustkhuddus, Kushta Nuqra, Kushta Tila, Lavender Capsules, MemoRise and Nauras are also useful in "Cerebral Atony".

Weakness of Spinal Cord

Dehlvi Ambar Shilajit Capsules

Nourishes the central nervous system - the brain and the spinal cord. It improves blood circulation and is useful in general debility and lethargy.

Dosage: 1 or 2 capsules a day.

Depression

Depresonil

It is a unique blend of natural herbs that help quell feelings of depression, anxiety, apathy, sleep disturbances, insomnia, anorexia, and feelings of worthlessness. Also may help to induce a feeling of calm, diminishes oversensitivity, improve mood, enhance well-being and sociability, relieve pain, fatigue and also improve mental alertness. Depresonil is more easily tolerated than prescription antidepressants because it is 100% natural and has no side effects.

Dosage: 1 or 2 capsules twice daily after meals with water. Continue use of this product at the recommended dosage as long as the above mentioned indications are obviously present. As symptoms subside, begin to reduce dosage accordingly. Maintain product use for some weeks even if no further symptoms are present. Do not exceed recommended dosage.

Note: Dehlvi Asab Plus, Lavender Capsules, Mulethi

Capsules, Nauras and Stresonil are also useful in 'Depression'.

Anxiety

Calm-Dn

Reduces chronic and nervous anxiety without any side-effects. It contains herbs that help with stress relief by supporting the adrenal glands, brain and metabolism to overcome the accumulation of biological stress. Restores mental peace and induces natural sleep. Also restores coordination of body and mind.

Dosage: 1 or 2 capsules twice daily after meals with water. Children above the age of 6 should be given 1 capsule twice a day. Continue use of this product at the recommended dosage as long as the above mentioned indications are obviously present.

Tagar Capsules

It is prescribed as a remedy for anxiety, mental strain, hysteria, hypochondriasis, nervous unrest, lack of concentration, excitability, and emotional troubles and problems of menopause. It was first recommended for insomnia by Galen (Jalinus). It reduces mental over-activity and nervous excitability, helping people who find it hard to 'switch off'. It is beneficial for almost any stress-related condition, and, in general, has a calming, rather than directly sedative, effect on the mind. It is sometimes referred to as a "daytime sedative" because it can improve performance, concentration and memory during the day as well as help one to sleep better during the night. It is a useful remedy for insomnia, whether caused by anxiety or overexcitement. It also gives relief in muscle spasms and lowers blood pressure caused by stress and anxiety.

Dosage: 1 capsule twice daily after meals with water. In cases of insomnia 2 capsules 1 hour before bedtime. Do not use at the same time as alcohol, barbiturates, or any other drug with sedative properties.

Note: Asraul Capsules, Ashwagandha Capsules, Babuna Capsules, Dehlvi Asab Plus, Depresonil, Energy-Aid, Nauras, Shankhapushpi Capsules and Stresonil are also useful in 'Anxiety'.

Stress

Stresonil

It is a blend of herbs that are highly esteemed as rejuvenators. Useful in stress and anxiety. Restores normalcy after a long-term illness or stress. Common signs of stress are irritability, anxiety, headaches, mood fluctuations, depression, digestive trouble, heart palpitations, weakened immune system, higher cholesterol levels, migraine headaches, muscle aches and sleep disorders. If stress is not handled properly, then more serious illnesses will result. Stresonil is not habit forming nor there are any withdrawal symptoms.

Dosage: 1 or 2 capsules twice daily with water. Continue use of this product at the recommended dosage as long as the above mentioned indications are obviously present. As symptoms subside, begin to reduce dosage accordingly. Maintain product use for some weeks even if no further symptoms are present. Do not exceed recommended dosage.

Note: Arjuna Amla Ras, Arjuna Capsules, Arjuna Ras, Asraul Capsules, Amleena, Ashwagandha Capsules, Babuna Capsules, Braini, Dehlvi Asab Plus, Depresonil, Energy-Aid, Lavender Capsules, Nauras, Shankhapushpi Capsules and Tulsi Capsules are useful in "Stress".

Insomnia

Babuna Capsules

It has the ability to soothe the nerves and promote more restful sleep. It also reduces anxiety and induces a state of pleasant relaxation without disrupting normal function or interfering with motor coordination. It has also been safely used to calm restless children.

Dosage: 1 capsule twice daily before meals.

Roghan Arba

Removes dryness and gives a cool feeling to the brain. Useful in chronic insomnia. Regular use for a few days will result in a sound sleep. Also useful in headaches.

Usage: Rub gently on the scalp and forehead. Instill a drop or two in the nose and ears.

Roghan Khashkhash

Removes dryness of the brain and induces sleep. Relieves headache due to intensity of heat.

Usage: Rub gently on the scalp and forehead. Instill a drop or two in the nose and ears.

Roghan Labub Saba

Soothes and gives a cool feeling to the brain. Useful in chronic insomnia and headaches.

Usage: Rub gently on the scalp and forehead. Instill a drop or two in the nose and ears.

Note: Asraul Capsules, Barshasha, Calm-Dn, Dawa-ush-Shifa, Depresonil, Lavender Capsules, Roghan Badam Shirin, Roghan Banafsha, Roghan Kaddu, Roghan Kahu, Shankhapushpi Capsules, Stresonil and Tagar Capsules are also recommended in "Insomnia".

Amnesia

Amleena

Contains natural vitamins and is especially rich in Vitamin 'C'. Also contains carbohydrates, proteins and minerals which provide energy and supplement Protein Energy Malnutrition (PEM). The special herbal formula provides required sedative elements that relax strained muscles

and soothe whole body. Ideal for people involved in academic activities such as students, scientists, advocates, accountants and engineers. The prolonged mental excercise leaves sort of vacant mindedness and induces heaviness, sure signs of mental fatigue. It is beneficial for sportsmen, labourers, housewives, etc., who need lots of muscular energy. Also recommended in loss of memory, stress, strain and fatigue, lassitude, loss of vigour, inertness and apathy, insomnia, anorexia, weakness of eyesight, bronchitis and diarrhoea. On the whole, AMLEENA is a 'total body nourisher from head to toe'.

Dosage: 20 g to be given in the morning with breakfast. Tastes good if spread on bread-slices.

Brahmi Capsules

The herb has been in use for almost 3000 years in Unani, Ayurvedic and Chinese medicines. It is a classic brain and nerve tonic. It contains many nutrients that support the body's vitality and feed the nervous system, including vitamins A, B, E and K, and magnesium. Brahmi is considered the main rejuvenating herb for nerve and brain cells and, therefore, has played a very important role for the treatment of cognitive disorders of aging. Countless studies have shown Brahmi helps improve protein activity and protein synthesis, especially in brain cells, which can increase intelligence, longevity and memory and decrease senility and aging. It is most commonly used as a nerve tonic that enhances learning and academic performance, improves mental alertness, sharpens short-term and long-term memory, rectifies speech disorders, increase concentration and intellectual ability in children.

Dosage: 1 capsule twice daily with water at mealtimes.

Braini

As the brain becomes starved for adequate nutrients and oxygen, malfunctions such as memory loss, personality changes and lack of concentration are predictable. Additionally, modern lifestyle itself can leave a person feeling mentally dull and fatigued. Braini has been created especially for those people whose day-to-day activities demand high mental energy. Such persons as advocates, students, accountants, engineers and the scientists who, after long hours of brain activity feel a sensation of heaviness or vacant-mindedness, which are sure signs of mental fatigue. Also, is equally good for the people whose job requires a lot of muscular energy like sportsmen, manual workers, housewives, etc. It replenishes the lost energy and relieves mental tension. By providing strength it creates desire for more work and increases efficiency. It is a blend of the choicest herbs like BRAHMI (which has a proven track record of efficiency in improving brain faculties). It provides natural vitamins, minerals, carbohydrates and trace elements.

Dosage: 20 g in the morning and evening.

Kushta Marjan Jawahar

Strengthens the heart and brain. Improves memory and

also removes headaches, cough, cold and catarrh due to weakness of brain.

Dosage: 30 to 60 mg. or 1 or 2 tablets with 5 g Khamira Gaozaban Ambari or Dehlvi Gaozabani Ambar-SF in the morning and evening.

MemoRise

It contains an ideal combination of time-tested, clinically proven ingredients that help increase the level of neurotransmitters, particularly acetyl-choline, and improve blood flow to the brain, thereby increasing its oxygen and nutrient supply, which will aid brain function and memory. It has been developed especially for those people whose day-to-day activities demand high mental energy. It replenishes lost energy and relieves mental tension. By providing strength it creates desire for more work and increases efficiency. It is a blend of the choicest herbs like BRAHMI (which has a proven track record of efficiency in improving brain faculties). The mentally fatigued and elderly can reduce frustrating bouts of forgetfulness.

Dosage: 2 capsules twice daily with meals.

Shankhapushpi Capsules

It increases mental faculties such as memory, intellect and alertness. It is used to cure insomnia, irritability as well as epilepsy, as it has a relaxing effect on the brain. It is a natural tranquilliser that promotes deep and revitalising sleep. Recommended where the mind becomes overactive, agitated and restless.

Dosage: 2 capsules twice daily with meals.

Note: Amla Capsules, Dehlvi Gaozabani Ambar-SF, Dehlvi Gaozabani Ambari Jawahri-SF, Khamira Gaozaban Ambari, Khamira Gaozaban Ambari Jawaharwala, Lavender Capsules, Musli Kesar Capsules, Musli Kesar Prash, Musli Kesar Prash-SF, Nauras and Sharbat Ustkhuddus are also recommended in "Amnesia".

Sun Stroke

Shahi Gulberg

Gives a cool feeling to the body. Relieves heat and quenches thirst. Free from artificial flavours or smell.

Dosage: 50 ml with chilled water as and when required.

Sharbat Anar Shirin

Strengthens the heart and liver. Gives a cool feeling to the body and quenches thirst. Stops diarrhoea with blood (malaena), nausea and vomiting.

Dosage: 25 ml with chilled water as and when required.

Sharbat Gulab

Prepared from fresh flowers of roses. Strengthens the heart and gives a cool feeling to the body. Relieves heat.

Dosage: 50 ml with chilled water as and when required.

Sharbat Khus

Gives a cool feeling to the body. Relieves heat and quenches thirst.

Dosage: 50 ml with chilled water as and when required.

Sharbat Keora

Strengthens the heart and gives a cool feeling to the body. Removes anxiety states and palpitation and quenches thirst.

Dosage: 50 ml with chilled water as and when required.

Sharbat Nilofar

Checks biliousness during fevers and quenches thirst. Relieves heat even when there is no fever. Strengthens the heart and is useful in sun stroke.

Dosage: 25 to 50 ml with chilled water as and when required.

Sharbat Sandal

Removes anxiety states and palpitation. Reduces hepatic and stomach heat and relieves headaches due to intensity of heat.

Dosage: 50 ml with chilled water as and when required.

Meningitis

Roghan Gul

Useful in early stages of meningitis and delirious states associated with fever. Also relieves headache caused due to intensity of heat.

Usage: Apply with cotton wool on the head mixed with Rooh Arq Gulab and Vinegar. In headaches, apply gently on the forehead.

Melancholia

Dawa-ush-Shifa

A famous medicine for insanity. Also recommended in melancholia, anxiety states, hysteria, epilepsy, insomnia and hyper-excitability. Also effective in cases of high blood pressure.

Dosage: 1 tablet at night with water.

Majun Nijah

Useful in insanity, melancholia, epilepsy and hysteria.

Dosage: 5 to 10 g at night with water.

Sharbat Ahmed Shahi

Useful in melancholia and chronic constipation. Strengthens the heart and brain.

Dosage: 25 ml to be given along with 125 ml Arq Gaozaban or water.

Note: Asraul Capsules, Barshasha, Dawaul Misk Motadil, Dawaul Misk Motadil Jawarwali, Dehlvi Abresham Arshadi-SF, Dehlvi Arshad Gold Pills, Dehlvi D.M.M. Jawahri Capsules, Dehlvi Dawaul Motadil Jawahri-SF, Dehlvi Gaozabani Ambari Jawahri-SF, Dehlvi SehaTone, Heart-Care, Itrefal Zamani, Khamira Abresham Hakim Arshadwala, Khamira Gaozaban Ambari Jawaharwala, Khamira Gaozaban Sada and Kushta Marwareed are also recommended in "Melancholia".

Epilepsy

Dehlvi Gaozabani Ambari Jadwari-SF

The same benefits of Khamira Gaozaban Ambari Jadwar Ud Saleebwala in a sugar free form.

Dosage: 5 g in the morning on an empty stomach with 125 ml milk or Arq Gaozaban.

EpiCap

It is a stimulant of the exhausted nervous system and also an antispasmodic. As an antispasmodic, it is very useful in convulsions and spasmodic nervous affections such as epilepsy, infantile epilepsy, muscular tremor and bipolar disorder.

Dosage: 2 capsules twice daily with water.

Habbe Sara

An effective medicine for epilepsy and infantile epilepsy.

Dosage: 1 or 2 pills in the morning and evening with 5 g. Dehlvi Gaozabani Ambari Jadwari-SF or Khamira Gaozaban Ambari Jadwar Ud Saleebwala. For infants 1/2 to 1 pill to be ground in mothers milk and given. Milk, curd, spicy, oily and gas producing food should be avoided.

Khamira Gaozaban Ambari Jadwar Ud Saleebwala

Specially useful in epilepsy. Also useful in paralysis, facial paralysis, infantile epilepsy, chorea and hysteria. Strengthens the brain and nerves.

Dosage: 5 g in the morning on an empty stomach with 125 ml milk or Arq Gaozaban.

Note: Aqarqarah Capsules, Asraul Capsules and Shankhapushpi Capsules are also recommended in "Epilepsy".

Neuritis

Aqarqarah Capsules, Dehlvi Gaozabani Ambari Jadwari-SF, Habbe Sara, Khamira Gaozaban Ambari Jadwar Ud Saleebwala and Roghan Zaitoon are recommended in "Neuritis".

Sciatica

Habbe Asgandh

Recommended in arthritis, gout, sciatica, rheumatism and backache.

Dosage: 1 or 2 pills in the morning and evening with water.

Habbe Suranjan

Particularly recommended in arthritis and rheumatism. Also useful in chronic cases of gout and sciatica. Removes constipation.

Dosage: 1 or 2 pills in the morning and evening with water.

Note: Aloe vera Capsules, Aloe vera Jelly, Dehlvi Blue Balm, Dehlvi PR-Tablets, Dehlvi Roghan Phosphorus, Dehlvi Suranjan Mufasil Capsules, Habbe Azaraqi, Majun Azaraqi, Majun Chobchini, Majun Jograj Guggal, Majun Suranjan, Musli Kesar Capsules, Musli Kesar Prash, Musli Kesar Prash-SF, Nopain Tablets, Ostopain Massage Oil, Ostopain Ointment, Ostopain Tablets, Qurs Musakkin, Roghan Dard, Roghan Keemia, Roghan Malkangani, Roghan Suranjan and Roghan Surkh and also recommended in "Sciatica".

Paralysis, Facial Paralysis & Chorea

Aqarqarah Capsules

It is given in paralysis, hemiplegia, epilepsy, chorea and is also given to help ease neuralgia and rheumatism. Its effectiveness has been linked to powerful stimulant properties that have been found to be valuable for sexual stimulation. Useful in premature ejaculation and erectile dysfunction. Also useful in seminal debility.

Dosage: 1 capsule twice daily before meals with water.

Habbe Asab Nuqrai

Strengthens and stimulates the brain and nerves. Useful in paralysis, facial paralysis, hemiplegia and arthritis.

Dosage: 1 or 2 pills in the morning and evening with water.

Habbe Azaraqi

Strengthens and stimulates the nerves. Useful in paralysis, facial paralysis, hemiplegia and arthritis.

Dosage: 1 or 2 pills in the morning and evening with water.

Majun Azaraqi

Strengthens and stimulates the nerves. Useful in nerve diseases particularly paralysis, facial paralysis, hemiplegia and chorea. Also relieves rheumatism and gout. In winters it is particularly recommended for the elderly.

Dosage: 3 to 5 g daily in the morning after breakfast or after both meals with water.

Useful in nervine diseases particularly paralysis, facial paralysis, hemiplegia, chorea, sciatica and gout. Strengthens the nerves. Also relieves rheumatism and is useful in syphilis.

Dosage: 5 g in the morning or at night with water.

Majun Lana

Useful in paralysis, facial paralysis, hemiplegia, chorea and syphilis. Relieves rheumatism and is also useful in sexual debility.

Dosage: 5 g in the morning or at night with water.

Majun Talkh

Useful in paralysis, facial paralysis, chorea and epilepsy. Strengthens the stomach and liver and gives relief in backache.

Dosage: 5 g in the morning or at night with water.

Roghan Keemia

Useful in rheumatism and paralysis. Increases the circulation of blood and has an immediate action on the affected area on application.

Usage: Rub gently for about 10 minutes on the affected area and warm the area.

Roghan Suranjan

Useful in paralysis, facial paralysis, hemiplegia, rheumatism, gout, sciatica and backache.

Usage: Rub gently in a lukewarm condition.

Roghan Surkh

Useful as an external application in paralysis, hemiplegia, chorea, sciatica, gout and rheumatism. Also used as a general body massage oil.

Usage: Rub gently in a lukewarm condition.

Note: Dehlvi Gaozabani Ambari Jadwari-SF, Jauhar Munaqqa, Khamira Gaozaban Ambari Jadwar Ud Saleebwala, Kushta Gaudanti and Roghan Malkangani are also recommended in "Paralysis, Facial Paralysis & Chorea".

Apoplexy

Dehlvi Dinar-SF, Dehlvi Gaozabani Ambari Jadwari-SF, Habbe Sara, Khamira Gaozaban Ambari Jadwar Ud Saleebwala, Majun Jograj Guggal and Sharbat Dinar are recommended in "Apoplexy".

Immunodeficiency Diseases

Dysfunction of the Immune System

AktiLife Capsules

Contains well-known adaptogenic herbs that help improve adrenal and immune function. It is non-toxic and is not habit forming, while it exerts a normalizing influence on the body, possessing a wide range of therapeutic benefits which cause no disturbance to the normal functioning of the body. Explaining the effects of AktiLife Capsules is difficult, since they will influence each individual differently. If you are mentally exhausted or physically fatigued, the capsules will help you feel more energetic, vitalised, and full of zest for life - but yet, they are not normal stimulants. Should you however be stressed-out, or emotionally tired, and not coping with life these capsules will help you relax and make life easier to cope with, yet it is not a tranquilliser and will not have a drug-like effect on the body. The antioxidants in these capsules help the body fight free radicals which are released during the oxidation process of metabolism in the body, which can cause a variety of problems such as cell degeneration, cancer, premature ageing and many other diseases. Useful for the entire family.

Dosage: 1 or 2 capsules daily in the morning. Continue for at least 2 to 3 months.

Aloe Vera Capsules

It is a natural detoxifier that boosts the immune system, increases beneficial intestinal flora, soothes and repairs damaged and inflamed tissue. It increases regeneration of liver cells and repairs liver damage due to hepatitis, chemicals, medication and alcohol. It accelerates the alcohol oxidation rate and helps faster elimination of alcohol. It has positive effects on the enzyme system of the liver.

Dosage: Take 1 or 2 capsules daily in the morning with water.

Aloe Vera Juice

Natural detoxifier, strengthens immune system, relieves indigestion, bloating, heartburn, constipation, acidity and ulcer, assists in weight loss, useful in eczema, pimples, boils, etc., retains skin elasticity and delays ageing process, provides relief from arthritis.

Dosage: 20 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Amla Aloe Vera Ras

Along with all the efficacies of Amla Aloe Vera, regulates blood pressure, useful in diabetes.

Dosage: 20 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Amla Capsules

Amla Fruit is a natural and efficacious antioxidant which

contains the highest amount of vitamin C in natural form. Useful in anxiety, melancholia, haemorrhage, diabetes, diarrhoea and dysentery. Ancient text refers to Amla as the best medicine for premature aging. Regular usage leads to rejuvenation of the body, increases memory and improves eyesight. Along with iron it is a valuable remedy in anaemia, jaundice and dyspepsia. It tones up the functions of all organs of the body and build up health by destroying the heterogenous or harmful and disease causing elements. It increases immunity in the body. It is reported to have the property of promoting hair growth, pigmentation and preventing premature graying of hair.

Dosage: Take 1 capsule twice daily before meals with water.

Amla Ras

Richest natural source of vitamin C, strengthens immune system, prevents premature greying of hair and hair fall and brings healthy shine to skin and hair, delays ageing, improves eye-sight, detoxifies the liver, helps digestion, relieves from acidity, acts as a rejuvenating brain tonic.

Dosage: 20 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Ayush Joshanda

It contains Tulsi, Cinnamon, Ginger and Black Pepper which increases immunity. Useful in cough, cold and soar throat. Also useful in ailments of the nose, throat and in breathing problems. Tablets also available.

Dosage: Dissolve 3 gm (1/2 tsp) powder in 150 ml boiling water, filter and then drink like tea. Dehlvi Natural Multiflora Honey, Jagger, Raisins or/and Lemon Juice can be added for taste. Drink once or twice a day. 1 or 2 tablets with water can also be taken.

Curcuma (Turmeric/Haldi) Capsules

Aids digestion and improves eyesight. It purifies blood by destroying the pathogenic organism. Also useful in insomnia, sinusitis, cough, cold and respiratory diseases. It inhibits blood-clotting and help lower blood cholesterol levels and has a protective action on the stomach. It is also useful in ulcers, oedema and anaemia (as it is rich in iron) and has the ability to protect the liver against toxic substances, especially such heavy metals as lead and to increase the flow of bile. Women will also appreciate its calming benefits for discomforts experienced during monthly periods. It also regulates menses. It also exhibits antiinflammatory properties that are useful in the treatment of both osteoarthritis and rheumatoid arthritis.

Dosage: 2 capsules daily in the morning and evening.

ImmunoBoost

Immuno Boost is a unique combination of natural ingredients specially formulated to support a healthy immune system, thereby ensuring faster recovery and reducing frequent bouts of illness. Immuno Boost helps reinforce natural immune resistance against viral attacks. Safe for long-term use.

Dosage: 1 or 2 capsules daily in the morning. Children over 12 years can be given 1 capsule daily.

ImmunoHaldi (Haldi Ras)

ImmunoHaldi aids digestion and improves eyesight. It purifies blood by destroying the pathogenic organism. Also useful in insomnia, sinusitis, cough, cold and respiratory diseases. ImmunoHaldi Inhibits blood-clotting and help lower blood cholesterol levels and has a protective action on the stomach. It is also useful in ulcers, oedema and anaemia (as it is rich in iron) and has the ability to protect the liver against toxic substances, especially such heavy metals as lead and to increase the flow of bile. Women will also appreciate its calming benefits for discomforts experienced during monthly periods. It also regulates menses. It also exhibits antiinflammatory properties that are useful in the treatment of both osteoarthritis and rheumatoid arthritis.

The immune enhancing activity of Haldi is beneficial in conditions like arthritis, allergy, asthma, heart disease, diabetes and cancer; hence this proves the ability of turmeric in modulating the immune system. It is also known to be a powerful antioxidant. It inhibits the damage done by free radicals, prevents cancer and even reduces the side effects of chemotherapy. The antioxidant activity of Haldi is comparable to standard antioxidants like Vitamin C and E. It provides protection against environmental pollution and helps synthesize important vitamins like Vitamin D and adrenal cortex hormones, thus reduces the risks of hypertension, arteriosclerosis and heart diseases. As an antioxidant Haldi neutralizes free radicals, this is especially important in arthritis as the free radicals are responsible for the painful joint inflammation and eventual damage to the joints.

Dosage: 20 ml to be boiled in milk and taken at night. Not to be used during pregnancy and lactation.

Note: Babuna Capsules, Beejband Capsules, Behman Capsules, Gilo Capsules, Jigron Syrup & Capsules, Jigron-SF, Lasuna Capsules, Liv-On Tablets, Moringa Capsules, Mulethi Capsules, Nauras, Neem Capsules, Shilajit Capsules, Shilajit-Care, Spirulina Capsules, Stresonil and Tulsi Capsules are also recommended in "Dysfunction of the Immune System".

Diseases of the Endocrine System

Thyroidism

ThyroCap

It is a synergistic herbal blend designed to feed, nourish and balance the thyroid gland. It treats hypo/hyper thyroid diseases and glandular enlargements. It has a balancing activity on the thyroxine production; increasing any

deficient production and decreasing any excess – helping you to maintain optimal weight, neuromuscular tone and cardiovascular health.

Dosage: In acute cases 2 capsules 30 minutes before lunch and dinner. In chronic cases 1 capsule 30 minutes after lunch and dinner. To be continued for a month even when the TSH level becomes normal.

Diseases of the Eyes

Weakness of Eyesight (Asthenopia)

Khamira Abresham Sada

Strengthens the heart and brain and is useful in palpitation and anxiety states. Expels phlegm and strengthens eyesight.

Dosage: 5 g in the morning on an empty stomach or at night with water.

Kohlul Jawahar

Regular use removes asthenopia and protects the eyes from various diseases and increases eyesight.

Usage: Apply in the morning and at bedtime as collyrium (Surma) with a glass or lead bougie (Salai).

Noor-o-Nazar Surma

Prepared from precious ingredients, its regular use removes asthenopia and protects the eyes from various diseases.

Usage: Apply in the morning and at bedtime as collyrium (Surma) with a glass or lead bougie (Salai).

Note: Amla Capsules, Amleena, Arq Mundi, Braini, Dehlvi Gaozabani Ambar-SF, Dehlvi Gaozabani Ambari Jawahri-SF, Itrefal Muqavvi Dimagh, Khamira Abresham Shira Unnabwala, Khamira Gaozaban Ambari, Khamira Gaozaban Ambari Jawaharwala, Khamira Gaozaban Sada, Triphala Capsules, Triphala Ras and Triphala Aloe vera Ras are also recommended in “Asthenopia”.

Blepharitis, Conjunctivitis & Styte

Arq Gulab (Eye Drop)

Helps to eradicate irritation in the eyes and removes any dust or foreign particle. Removes redness of the eyes.

Sharbat Banafsha

Useful in fevers, common cold, catarrh, cough and other diseases of the chest.

Dosage: 25 ml with water.

Sharbat Nazla

The process of formation and decay of the Complex Organic Molecules such as LIPIDS, PROTEINS, CARBOHYDRATES etc. starts off at birth and goes on till the end of life. As a result of the biochemical reactions alongwith useful substances, some substances that are toxic are also generated that must be excreted. The body has its own mechanism to get rid off these unwanted by-products. In the brain too, there is a mechanism which is yet to be fully understood to shed off these harmful substances. According to the Greek school of thought when these degradation products flow towards thoracic region, are called NAZLA and when towards nasal region, are termed ZUKAAM. So, Nazla and Zukaam are two names of the same thing depending upon the route it follows from the brain to the two different sites of the body.

Sharbat Nazla helps activate this cleaning up process. This contains such fabulous ingredients as USTKHUDDUS nicknamed "The Broom of Brain". It builds up body resistance besides acting as a protectant against pathogenic invasions.

Dosage: 10 ml or 2 teaspoonfuls in the morning and evening with lukewarm water on an empty stomach.

Sharbat Ustkhuddus

Useful in common cold, catarrh, cough and other diseases of the chest. Also strengthen brain power, expel brain crudities and clarifies the intellect.

Dosage: 25 ml with water.

Sanun Jadid and Sanun Surkh are recommended in "Stained Teeth".

Bleeding Gums

Sanun Surkh

A tooth powder which cures gingivitis, fights sepsis and strengthens the gums.

Usage: To be rubbed on the teeth and gums in the morning after breakfast and at bed time.

Note: Jawarish Amla Sada, Qurs Kehruha and Sanun Jadid are also recommended in "Bleeding Gums".

Pyorrhoea

Itrefal Shahtara, Majun Ushba, Sanun Jadid and Sanun Surkh are recommended in "Pyorrhoea".

Gingivitis

Dehlvi Jawarish Mastic-SF, Jawarish Amla Sada, Jawarish Mastagi, Jawarish Tabashir, Jawarish Zanjbil, Mastagi Capsules, Sanun Jadid and Sanun Surkh are recommended in "Gingivitis".

Loose Teeth

Sanun Jadid and Sanun Surkh are recommended in "Loose Teeth".

Diseases of the Mouth & Tongue

Thrush

Jawarish Amla Sada, Jawarish Shahi and Kushta Faulad are also recommended in "Thrush".

Ptyalism (Salivation)

Dehlvi Galenus Pills, Dehlvi Galenus-SF, Dehlvi Jawarish Mastic-SF, Dehlvi Kamoon Capsules, Dehlvi Kamoon-SF, Jawarish Jalinus, Jawarish Kamuni, Jawarish Kamuni Mushil, Jawarish Mastagi, Majun Nankhah and Mastagi Capsules are recommended in "Ptyalism".

Halitosis (Foul Breath)

Dehlvi Falasafeen Capsules, Dehlvi Falasafeen-SF, Dehlvi Galenus Pills, Dehlvi Galenus-SF, Jawarish Bisbasa, Jawarish Jalinus, Majun Falasfa, Sanun Jadid and Sanun Surkh are recommended in "Halitosis".

Cracked Lips

Rogan Gul and Roghab Kaddu are recommended in "Cracked Lips".

Stammering

Kushta Gaudanti is recommended in "Stammering". Open one Capsule of Aqarqarah and put it on the tongue. Rinse after 5 minutes.

Diseases of the Pharynx & Throat

Elongation of the Uvula

Sharbat Tooth Siah

Useful in tonsillitis and chlorelitis.

Dosage: 25 ml in the morning and evening with hot water.

Tonsillitis

Tonsilin

A throat paint which is effective in tonsillitis, sore throat and chlorelitis. It can also be used as a gargle to cure aphthae in the mouth and in thrush and pseudo-membranous deposits.

Usage: Apply 2-3 times a day with cotton wool to the tonsils and throat or gargle 2-3 times with lukewarm water mixed with salt.

Note: Kufno Syrup, Kufno-SF, Kufno Tablets, Lauq Sapistan Khayar Shambari, and Sharbat Toot Siah are also recommended in "Tonsillitis".

Granular Pharyngitis

Lauq Sapistan Khayar Shambari, Sharbat Toot Siah and Tonsilin are recommended in "Granular Pharyngitis".

Laryngitis & Hoarseness of Voice

Habbe Behtussaut

Clears the voice. Expels phlegm from the chest and is useful in cough and asthma.

Dosage: 1 pill to be sucked 2-3 times a day.

Note: Kufno Syrup, Kufno-SF, Kufno Tablets, Lauq Badam, Lauq Sapistan, Lauq Sapistan Khayar Shambari, Sharbat Tooth Siah and Tonsilin are also recommended in "Laryngitis & Hoarseness of Voice". For immediate relief in "Hoarseness of Voice" 2 tablets of Kufno Tablets to be dissolved in half a glass of hot water and the vapours to be inhaled through the mouth. Drink the water after it cools down.

Diphtheria

Medicines mentioned under "Tonsillitis" are also recommended in "Diphtheria".

Diseases of the Chest

Cough

Kufno Syrup

15 herbal extracts are masterfully blended into this highly effective yet pleasant tasting herbal formula to strengthen healthy lung function and support the mucous membranes in the respiratory tract, promoting clear and healthy bronchial passages. Provides natural antioxidants that support the immune system, easing the stresses of winter's insults and environmental pollutants as well as seasonal changes.

Dosage: 10 ml in the morning and evening mixed with lukewarm water.

Kufno-SF

The same benefits of Kufno Syrup in a sugar free form.

Dosage: 10 ml in the morning and evening mixed with lukewarm water.

Kufno Tablets

Arrests harassing cough, causes expulsion of morbid and toxic phlegm and clears the throat and lungs. Very useful in bronchitis.

Dosage: 2 tablets to be sucked 3 or 4 times a day. Children should be given 1 tablet dissolved in warm water.

Kushta Abrak Safed

Gives relief in cough and asthma. Also useful in sexual debility and general debility.

Dosage: 60 mg. or 2 tablets with 10 g. of honey.

Kushta Abrak Siah

Gives relief in cough and asthma. Also useful in sexual debility and general debility. More effective than Kushta Abrak Safed.

Dosage: 30 mg. to 60 mg. or 1 or 2 tablets with 10 g. of honey.

Sharbat Sadar

Effective in common cold, catarrh, asthma and cough. Also useful in irritation and inflammation of the throat. Strengthens the lungs and expels phlegm. Useful in phthisis and tuberculosis.

Dosage: 10 ml with warm water in the morning and evening.

Note: AsmaCap, Ayush Joshanda, Dehlvi Abresham Unnabi-SF, Dehlvi Joshanda Granules, Dehlvi Natural Joshanda, Gaozaban Capsules, Khamira Abresham Sada, Khamira Abresham Shira Unnabwala, Khamira Khashkhash, Kushta Zamarrud, Lauq Badam, Lauq Motadil, Lauq Sapistan, Lauq Sapistan Khayar Shambari, Mulethi Capsules, Sharbat Ejaz, Sharbat Nazla, Sharbat Toot Siah and Tulsi Capsules are also recommended in "Cough".

Bronchial Asthma

AsmaCap

It is useful in bronchial asthma and bronchitis. It contains time-tested bronchodilators, antihistaminic, mucolytic and expectorant herbs that build long term natural immunity to allergens and stress which trigger asthma and other respiratory tract ailments. It reduces inflammation and constriction in the respiratory tract and prevents oedema - stagnation of fluids and mucus in the lungs and dilates the airways making breathing easy and smooth. It reduces allergic manifestations thereby prevent seasonal attacks. As AsmaCap is plant based it is devoid of any harmful side effects and normally does not interact with any other medications that are already being administered. It is completely safe for long-term use.

Dosage: 1 capsule twice or thrice daily.

Beejband Capsules

Beejband contains the alkaloid ephedrine (0.8% to 1.2%) and pseudo-ephedrine along with other compounds as active ingredients that stimulate the cardio-vascular system and central nervous system. The seeds have been used in India for over 2,000 years to treat a variety of health disorders like bronchial asthma, common cold, flu, chills, headache, nasal congestion, aching joints and bones, cough, wheezing and oedema. One of its uses is in weight loss too as the ephedrine alkaloids control metabolism in human body. It also helps balance proper amounts of the male hormone, testosterone and increases sexual desire. Useful in spermatorrhoea and nocturnal emission. Develops body resistance or immunity against infection.

Dosage: 1 capsule twice daily after meals with water.

Dehlvi Abresham Unnabi-SF

The same benefits of Dehlvi Abresham Unnabi-SF in a sugar free form.

Dosage: : 5 g. in the morning on an empty stomach with 125 ml Arq Gaozaban or water.

Habbe Ziqunnafas

Useful in bronchial asthma and cough.

Dosage: 1 pill in the morning and evening with water.

Khamira Abresham Shira Unnabwala

Useful in dry cough, phthisis and tuberculosis. Is also useful in nervous debility, anxiety states and palpitation. Reduces the heat of the stomach. Also strengthens the brain and lungs and increases eyesight.

Dosage: 5 g. in the morning on an empty stomach with 125 ml Arq Gaozaban or water.

Kushta Abrak Kalan

Gives prompt symptomatic relief in cough and bronchial asthma. Also useful in general and sexual debility.

Dosage: 60 mg. or 2 tablets with honey. In general and

sexual debility it should be given with 15 g. butter.

Lauq Katan

Useful in bronchial asthma. Expels phlegm and also relieves constipation.

Dosage: 10 g. in the morning and evening.

Lauq Sapistan Khayar Shambari

Useful in common cold and catarrh and relieves cough caused by cold. Expels phlegm and removes constipation. Also useful in other diseases of the throat and esophagus.

Dosage: 10 g. in the morning and evening mixed with warm water.

Sharbat Zoofa Murakkab

Useful in bronchial asthma and phlegmatic cough. Expels phlegm from the chest.

Dosage: 25 ml mixed with warm water as and when required.

Sharbat Zoofa Sada

Useful in bronchial asthma and phlegmatic cough.

Dosage: 25 ml mixed with warm water as and when required.

Note: Arabian Nuskha, Gaozaban Capsules, Khamira Khashkhash, Kushta Marjan, Kushta Marjan Jawahar, Mulethi Capsules, Qairrooti Arde Krisna and Tulsi Capsules are also recommended in "Bronchial Asthma".

Haemoptysis (Spitting of Blood)

Qurs Bandish Khoon

Stops spitting of blood, bleeding through nose (epistaxis), piles, excess bleeding during menses and bleeding from other parts of the body.

Dosage: 2 tablets in the morning and evening with milk or water.

Sharbat Anjabar

Useful in diarrhoea with blood. Also useful in haemoptysis and bleeding from other parts of the body. Strengthens the stomach and liver and reduces fever.

Dosage: 25 ml mixed with water.

Note: Jawarish Amla Sada, Kushta Aqeeq, Kushta Marjan, Kushta Marjan Jawahar, Kushta Marwareed, Mochras Capsules, Qurs Kehruha and Sharbat Ejaz are also recommended in "Haemoptysis"

Phthisis & Tuberculosis

Lauq Badam

It is useful in dry cough. Also strengthens the brain.

Dosage: 10 g. in the morning and evening with lukewarm

water

Sehat Bakhsh

Very useful in the initial stages of tuberculosis. After a few doses it kills the tuberculosis organisms, reduces inflammation of the lungs and heals the holes or cavities of the lungs formed as a result of tissue destruction. Useful in cough and fever.

Dosage: 30 ml in the morning and evening.

Sharbat Ejaz

Useful in phthisis, tuberculosis and dry cough.

Dosage: 25ml mixed with 125ml Arq Gaozaban.

Note: Dehlvi Abresham Unnabi-SF, Dehlvi Khamira Moti-SF, Irovita, Khamira Abresham Shira Unnabwala, Khamira Marwareed, Kushta Aqeeq, Kushta Faulad, Kushta Marwareed, Sharbat Faulad and Tulsi Capsules are also recommended in "Phthisis & Tuberculosis".

Pneumonia & Pleurisy

Kushta Qarnulail

Useful in pneumonia, pleurisy and phlegmatic cough. Also useful in scrofula.

Dosage: 60 mg. or 2 tablets in the morning and evening with 10 g. Lauq Sapistan Khayar Shambari.

Qairooti Arde Krisna

Useful in pneumonia, infantile pneumonia, pleurisy and bronchial asthma. Expels phlegm from the chest.

Usage: 10 g. mixed with 5 ml Roghan Tarpeen (Turpentine Oil) and applied on the ribs and chest and covered with warm cloth.

Note: Dehlvi Deenar-SF, Kufno Syrup, Kufno-SF, Sharbat Banafsha and Sharbat Dinar are also recommended in "Pneumonia & Pleurisy".

Cardiovascular Disorders

Weakness of the Heart

Arabian Nuskha

A natural home remedy that prevents heart blockage, angina and obesity. An ancient tried and tested formulation that cuts down fat thereby reducing chances of cardiac dysfunction and tones up muscles into a fit and shapely body. No need to cut down on food or go into unscientific and cumbersome routine of extra ordinary regimen. It controls blood pressure, prevents thickening of blood and paralytic attacks, improves digestion, prevents skin diseases, improves intestinal strength and reduces

stiffness and pain in the joints. It's great as a prophylactic for maintaining good health. Apple cider vinegar used in this preparation is raw, unpasteurized and unfiltered for maximum benefit.

Dosage: With the pack.

Arjuna Amla Ras

Rich in all Amla and Arjuna Ras efficacy.

Dosage: 20-30 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Arjuna Capsules

It is a unique herb that helps maintain a healthy heart and reduces the effects of stress and nervousness. Promotes effective cardiac functioning and regulates blood pressure. Arjuna's ability to suppress the blood's absorption of lipids indicates that it has cholesterol-regulating properties. High amounts of Co-enzyme Q-10 prevents incident of heart attacks. It's been shown to help reverse hardening of the arteries. The bark is useful as an anti-ischemic and cardioprotective agent in hypertension and in ischemic heart disease, especially in disturbed cardiac rhythm, angina or myocardial infarction. Arjuna is also known to relieve symptomatic complaints of essential hypertension viz. giddiness, insomnia, lassitude, headache and the inability to concentrate.

Dosage: 1 or 2 capsules twice daily before meals.

Arjuna Ras

Helps maintain a healthy heart, reduces stress and nervousness, promotes effective cardiac functioning and regulates blood pressure, has cholesterol regulating properties, prevents heart problem, beneficial in Angina, increases oxygen flow to heart muscles.

Dosage: 20-30 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Arq Amber

Strengthens the heart, brain, liver and the stomach. Replaces lost energies, produces fresh blood and invigorates the entire body system to maintain general, physical and mental well-being. Removes mental fatigue and exhaustion. Also useful in general debility and cases of syncope.

Dosage: 60 ml in the morning and evening with 20 ml Sharbat Anar Shirin.

Behman Capsules

Recent scientific research has confirmed the validity of Behman's traditional usage for heart and circulatory problems. It has shown to have a profound effect on the coronary circulation, reducing the symptoms of angina and improving heart function. It has been used to assist patients who are recovering from a heart attack and it appears to support heart function at this critical time. Clinical trials have shown that Behman is most effective when given as a preventive, rather than as a remedy after a heart attack has taken place. It particularly benefits the

coronary circulation, opening up the arteries and improving blood flow to the heart and is therefore helping in treating coronary heart disease. Though it does not lower blood pressure, it relaxes the blood vessels and improves circulation throughout the body. It helps prevent blood clots from forming and is quite useful in the prevention and treatment of myocardial infarction.

Dosage: 2 capsules twice daily before meals with water.

CardioSip

A formulation which supports a healthy heart function. It nourishes and strengthens the heart muscles thereby stimulating the blood circulation and allowing an increase of oxygen flow to the heart. Also helps to promote healthy cholesterol and triglycerides levels. It is beneficial for everyone, especially as a prophylactic for those who lead a stressful lifestyle or have a family history of coronary heart diseases.

Dosage: 10 ml in the morning and evening.

Dehlvi Abresham Arshadi-SF

A good cardiac tonic. A famous Unani medicine Khamira Abresham Hakim Arshadwala in a Sugar Free Form for strengthening the heart and other vital organs of the body in a sugar free form. Regulates the heart beat and increases circulation and formation of pure and healthy blood. Also useful in general debility, palpitation, anxiety, depression, melancholia, angina pectoris and convalescence. It lowers systolic and diastolic blood pressure and removes general debility.

Dosage: 1 gm. to 6 g with milk or water in the morning on an empty stomach. Rich, spicy and flatulent producing food should be avoided in the diet.

Dehlvi Arshad Gold Pills

Nothing removed except Sugar and nothing added except the efficacy to the original formulae. An excellent cardiac tonic. Dehlvi Arshad Gold Pills is the modernized sugar free form of the famous Unani medicine Khamira Abresham Hakim Arshadwala, which is used for strengthening the heart. One pill, minus Sugar, equals a dose of 5 gm Khamira. We use dehydrated fruits instead of juices from Quince (Behi), Pomegranate (Anar) and Apple (Seb), thus retaining same benefits as in the original formula. It lowers systolic and diastolic blood pressure and regulates heart beat, increases circulation and formation of pure and healthy blood. Useful in general debility, palpitation, anxiety, depression, melancholia, angina pectoris and in convalescence also. Removes general debility.

Dosage: 1 pill with milk or water in the morning on an empty stomach.

Dehlvi Heartone-DR

It contains ingredients that are useful in several cardiovascular diseases such as palpitation, angina, hyperlipidemia and post-myocardial infarction. It has a soothing effect on the nervous system thereby controlling

tachycardia, anxiety, phobias, stress and depression. It also lowers systolic and diastolic pressure. It is completely safe and can be used without any side effects for a prolonged period. In mild cases it is effective alone and in severe cases it can be combined with other drugs.

Dosage: 1 pill with water or 5 g Dehlvi Khamira Moti-SF or Khamira Marwareed in the morning or as and when required.

Habbe Jawahar

Useful in weakness of the heart, brain and liver. Increases the natural heat of the body. Removes general debility and is useful in palpitation and during convalescence.

Dosage: 1 pill in the morning and evening with 5 g Dawaul Misk Motadil Jawaharwali, Dehlvi Dawaul Motadil Jawahri-SF, Dehlvi Gaozabani Jawahri-SF or Khamira Gaozaban Ambari Jawaharwala followed by a glass of milk. Greasy, rich and flatulent producing food should be avoided in the diet.

Heart-Care

It contains ingredients that are useful in several cardiovascular diseases such as palpitation, angina, hyperlipidemia and post-myocardial infarction. It has a soothing effect on the nervous system thereby controlling tachycardia, anxiety, phobias, stress and depression. Regulates serum lipids by lowering low density lipoprotein (LDL) and restores high density lipoprotein (HDL) level which is cardioprotective. Also helps in retaining the natural heat of the body and is useful in convalescence. It is completely safe and can be used without any side effects for a prolonged period.

Dosage: 1 capsule in the morning on an empty stomach with water.

Jawahar Mohra

A famous Unani medicine for strengthening the heart, brain and liver. Helps in retaining the natural heat of the body and is useful in convalescence.

Dosage: 30 mg. or 1 tablet in the morning on an empty stomach with 5 g Dawaul Misk Motadil Jawaharwali, Dehlvi Dawaul Motadil Jawahri-SF, Dehlvi Gaozabani Jawahri-SF or Khamira Gaozaban Ambari Jawaharwala Children should be given half a dose.

Jawarish Shahi

Strengthens the heart and brain. Relieves anxiety and reduces fever.

Dosage: 5 to 10 g. in the morning on an empty stomach with water.

Khamira Abresham Hakim Arshadwala

A good cardiac tonic. A famous Unani medicine for strengthening the heart and other vital organs of the body Regulates the heart beat and increases circulation and formation of pure and healthy blood. Also useful in general debility, palpitation, anxiety, depression, melancholia, angina pectoris and convalescence. It lowers systolic and

diastolic blood pressure and removes general debility.

Dosage: 1 gm. to 6 g with milk or water in the morning on an empty stomach. Rich, spicy and flatulent producing food should be avoided in the diet.

Kushta Marwareed

Strengthens the heart. Useful in palpitation and tuberculosis, melancholia, hemoptysis, spermatorrhoea in males and leucorrhoea in females.

Dosage: 30 mg. or 1 tablet with 5 g. Khamira Gaozaban Ambari Jawaharwala.

Kushta Nuqra

Strengthens the heart, brain and liver. Useful in palpitation and anxiety. Removes sexual debility and is useful in spermatorrhoea, nocturnal emission and hydrospemia.

Hypertension (High Blood Pressure)

Asraul Capsules

Asraul has been employed for centuries for the relief of various central nervous system disorders, both psychic and motor, including anxiety states, insomnia, excitement, sexual aggression, maniacal behavior associated with psychosis, hypochondriasis, insanity, melancholia, schizophrenia and epilepsy in Indian medicine for about 4000 years. It contains Reserpine alkaloid which is used for mild, essential hypertension.

Dosage: 1 capsules at night with water.

Pressure-Eaze

Treats hypertension by balancing and regulating blood pressure and it also addresses some of the contributory factors which may be causing it. While some of the ingredients in Pressure-Eaze Capsules specifically target blood vessels which have become constricted, others improve the heart's ability to pump blood effectively, while also treating and preventing plaque build up in the arteries. It also helps to reduce stress and boost the body's ability to fight illness.

Dosage: 1 capsule in the morning and at night with water. Do not exceed recommended dosage.

Note: Apple Cider Vinegar (Seb Sirka), Arabian Nuskha, Arjuna Capsules, Dawa-ush-Shifa, Nauras and Tagar Capsules are also recommended in "Hypertension".

Hypotension (Low Blood Pressure)

In low blood pressure general debility increases and there is disinclination to work or a feeling of tiredness even while doing very light work or a feeling of sleepiness. Arq Maullaham Do Atisha, Arq Maullaham Khas, Dawaul Misk Motadil, Dawaul Misk Motadil Jawaharwali, Dehlvi Abresham Arshadi-SF, Dehlvi Arshad Gold Pills, Dehlvi D.M.M. Jawahri Capsules, Dehlvi Dawaul Motadil Jawahri-SF, Dehlvi Natural Health Tonic, Dehlvi Natural Health Tonic-SF, Dehlvi SehaTone, Energine, Energine-SF,

Habbe Amber Momyai, Habbe Khas, Jawahar Mohra, Khamira Abresham Hakim Arshadwala and Kushta Faulad are recommended in "Hypotension".

High Cholesterol Levels

Guggul Capsules

It is a very effective herbal medicine for controlling obesity and cholesterol. Guggul significantly lowers serum triglycerides and cholesterol as well as LDL and VLDL cholesterol (the "bad" cholesterol). At the same time, it raises levels of HDL cholesterol (the "good" cholesterol). Guggul has also been shown to reduce the stickiness of platelets-another effect that lowers the risk of coronary artery disease. It has a great effect in preventing heart atherosclerosis or narrowing of the arteries. It also has marked antiarthritic effect, comparable to that of hydrocortisone and is useful in arthritis, rheumatism and rheumatoid arthritis. It helps stimulate the regeneration of nerve tissue as well as bones and joints.

Dosage: 1 capsule twice daily after meals with water.

Lasuna Capsules

The extract of garlic has significant protective action against a fat induced increase in serum cholesterol and plasma fibrinogen and in fibrinolytic activity. It plays an important part in the treatment of high cholesterol. Garlic has been known to detoxify the body by cleansing the kidneys and increasing urine flow. Furthermore, Garlic's healing properties make it an ideal agent for fighting colds and flu, bacteria, and fungi.

Dosage: 1 capsule twice daily after meals with water.

LipoCap

It helps to lower cholesterol naturally, regain proper cholesterol management, reduce "bad" LDL-Cholesterol and Triglyceride levels within the blood system, and increase "good" HDL-Cholesterol levels. The ingredients in this herbal formula have been shown to help inhibit Cholesterol production and lower cholesterol naturally, help metabolise and reduce fatty acids within the bloodstream and upon heart and arterial tissue and help monitor and maintain appropriate levels and proportions of circulatory fats (Cholesterol and Triglycerides).

Dosage: 2 capsules twice a day with water.

Note: Apple Cider Vinegar (Seb Sirka), Arabian Nuskha, Arjuna Amla Ras, Arjuna Capsules, Arjuna Ras, CardioSip, Curcuma Capsules, Dehlvi Isabghol, ImmunoHaldi, Methi Capsules, Shilajit Capsules, Shilajit Care and Vilayati Imli Capsules are also recommended in "High Cholesterol Levels"

Syncope

Dawaul Misk Motadil Jawaharwali

Restores consciousness and energy if fainting occurs due

to extreme physical weakness.

Dosage: 5 g with milk or water by a spoon. If readily available, give small doses of the mixture of Rooh Arq Gulab and Arq Amber orally. Rooh Arq Gulab is also to be gently sprinkled on the face.

Dehlvi Dawaul Motadil Jawahri-SF

The same benefits of Dawaul Misk Moratil Jawaharwali in a sugar free form.

Dosage: 5 g in the morning and evening with a glass of milk or water.

Diseases of the Stomach

Atonic Stomach

Adrak Capsules

It is valued in medicine as a carminative and stimulant to the gastrointestinal tract. It is antiemetic and therefore brings relief to digestion troubled by travel sickness. It is much in vogue as a household remedy for indigestion as it warms the digestive organs, stimulates digestive secretions, increases the amylase concentration in saliva, and facilitates the digestion of starches and fatty foods. It is also useful in lack of appetite, wind, diarrhoea, dysentery, flatulence, colic, nausea, vomiting and spasm. Also protects the liver.

Dosage: 2 capsules twice daily after meals with water.

Arq Ajwain

Strengthens the liver and stomach. Useful in colic, gripes, dysentery, indigestion and flatulence. Also checks biliousness, burning sensation, thirst and nausea. Increases appetite.

Dosage: 75 ml to be given lukewarm in the morning and evening.

Arq Badiyan

Strengthens the liver, stomach and intestines. Useful in colic, gripes, dysentery, indigestion and flatulence. Also checks biliousness, burning sensation, thirst and nausea.

Dosage: 125 ml to be given lukewarm in the morning and evening.

Arq Brinjasif

Strengthens the liver, stomach, intestines, uterus, etc. and reduces fever caused due to their disorders.

Dosage: 125 ml to be given along with 25 ml Sharbat Habbul Aas.

Dehlvi Galenus Pills

Nothing removed except Sugar and nothing added except the efficacy to the original formulae. The famous Unani medicine, conceived by none other than the Greek Physician Claudius Galenus, often anglicized as Galen (known as Hakim Jalinus in Arabic), Jawarish Jalinus is

presented in a convenient pill form. With all the goodness of Jawarish Jalinus, Dehlvi Galenus Pills meet the demands of this modernized age. Two Pills are equal to one dose of 5 gm Jawarish Jalinus. We have just taken away Sugar. Strengthens the stomach, intestines, kidney, liver and bladder. Regulates gastric functions, increases appetite and helps in digestion and assimilation. It is useful in the treatment of acidity in stomach, burning sensation in the chest, bad breath and pain in the intestines. Also useful in phlegmatic cough and piles and stops excessive urination. Stops the repeated formation of stone in the kidney and urinary bladder. Regular use prevents premature graying of hair.

Strengthens the stomach, improves digestion and appetite and increases formation of pure blood. Removes constipation.

Dosage: 5 g. in the morning and evening or after both meals with water.

Majun Nankhah

Strengthens the stomach. Aids digestion and increases appetite.

Dosage: 5 g. in the morning and evening with water.

Naturo-Zyme

It is an optimal digestive aid containing a full spectrum of plant-derived enzymes in a single supplement. To help improve the body's absorption of nutrients, these valuable enzymes break down carbohydrates, proteins and fats. This includes starch, cellulose, lactose and other sugars. Natural supplementation is an excellent way to replenish enzymes lost from foods during cooking and processing.

Dosage: 1 or 2 capsules twice daily after meals.

Noshdaru

Strengthens the stomach and intestines. Checks diarrhoea caused due to their respective weakness. Aids digestion.

Dosage: 5 to 10 g. in the morning on an empty stomach with water.

Qurs Malti Basant

Strengthens the stomach and intestines. Prevents loose motions due to the weakness of stomach.

Dosage: 1 tablet along with 5 gm. Majun Sangdana Murgh.

Qurs Pudina

Strengthens the stomach. Aids digestion and increases appetite. Strengthens the liver.

Dosage: 2 -2 tablets in the morning and evening or after

meals with water.

Safuf Namak Sulemani

Strengthens the stomach and intestines. Helps in digestion of food and increases appetite. Useful in stomachache, flatulence and heaviness after meals. Also strengthens the liver.

Dosage: 1 to 3 g. daily after meals with water.

Note: Apple Cider Vinegar (Seb Sirka), Arq Nana, Arq Pudina, Dehlvi Jawarish Kamoon-SF, Dehlvi Jawarish Mastic-SF, Dehlvi Kamoon Capsules, Hazmeen, Jawarish Amla Sada, Jawarish Kamuni, Jawarish Mastagi, Jawarish Ud Tursh, Jawarish Ud Shirin, Jawarish Zanjbil, Kushta Faulad, Kushta Khabsul Hadid, Mastagi Capsules, Musli Kesar Capsules, Musli Kesar Prash, Musli Kesar Prash-SF, Riyaheen Chooran and Sharbat Habbul Aas are also recommended in "Atonic Stomach".

Gastralgia

Dehlvi Kamoon Capsules

Sharbat Dinar

Useful in hepatitis, enlargement of liver, dropsy and pleurisy. Removes constipation and increases urination.

Dosage: 25 to 50 ml with 125 ml Arq Badiyan or water.

Sharbat Kasni

Useful in hepatitis, cirrhosis of the liver and gastritis. Also useful in jaundice.

Dosage: 25 to 50 ml with water.

Sharbat Muhallil

Useful in hepatitis, cirrhosis of the liver and gastritis. Also useful in jaundice.

Dosage: 25 to 50 ml with water.

Note: Aloe Vera Capsules, Arq Brinjasif, Shilajit Capsules and Shilajit-Care are also recommended in "Hepatitis & Cirrhosis of the Liver".

Weakness of the Liver

Kasni Capsules

Jalinus, the second-century physician-herbalist, called Kasni a "friend of the liver." It is an acclaimed hepatoprotective and, is used in hepatic enlargement, sluggishness, jaundice, fever, vomiting and abdominal pain. Cleanses the urinary tract. Checks bilious enlargements of the spleen with general oedema.

Dosage: 1 capsule twice daily before meals.

Note: Aloe Vera Capsules, Dawaul Misk Motadil, Dawaul Misk Motadil Jawaharwali, Dehlvi Abresham Arshadi-SF, Dehlvi Arshad Gold Pills, Dehlvi D.M.M. Jawahri Capsules, Dehlvi D.Ward Capsules, Dehlvi Dawaul Motadil Jawahri-SF, Dehlvi Galenus Pills, Dehlvi Jawarish Galenus-SF, Dehlvi Jawarish Mastic-SF, Dehlvi Majun D.Ward-SF, Dehlvi SehaTone, Habbe Khas, Jawarish Anarain, Jawarish Jalinus, Jawarish Mastagi, Jigron Syrup & Capsules, Jigron-SF, Khamira Abresham Hakim Arshadwala, Kushta Faulad, Kushta Khabsul Hadid, Kushta Nuqra, Kushta Tila, Kushta Zamarrud, Liv-On Tablets, Majun Dabidul Ward, Mako Kasni Ras, Mastagi Capsules, Musli Kesar Capsules, Musli Kesar Prash, Musli Kesar Prash-SF Noshdaru, Punarnava Capsules, Sharbat Arba, Sharbat Faulad and Sharbat Injeer are also recommended in "Weakness of the Liver".

Bilious Liver

Kuliah Bazoori-SF

It is a unique sugar free formulation, which assists the liver and kidneys to function in the normal way, maintaining these vital organs at the optimum healthy level. Purifies the blood by removing the contaminants from the circulating blood. It also helps the liver to remove a number of toxic wastes, e.g., drugs, bacteria, parasites, food additives, chemicals, fats, alcohol, etc. It removes biliousness of liver, kidney and bladder by inducing excessive urination, and reduces fever caused by hepatic heat. It is useful in jaundice also. It prevents the formation of kidney stones and helps to dissolve the kidney and bladder stones too. It also acts as a diuretic. It normalizes urinary pH and alleviates burning during urination. It soothes an irritated and inflamed bladder due to its demulcent and anti-inflammatory activity. It is also useful in urinary tract infections.

Dosage: 10 ml each in the morning and evening.

Sharbat Bazoori Barid

Useful in various diseases of the liver, kidney and bladder. Removes biliousness of liver. Induces urination and removes pain while urinating. Reduces fever caused by hepatic heat.

Dosage: 25 to 50 ml mixed with cold water.

Sharbat Bazoori Motadil

Removes biliousness of liver, kidney and bladder by inducing excessive urination. Reduces fever caused by hepatic heat.

Dosage: 25 to 50 ml mixed with cold water.

Note: Arq Arba, Arq Kasni, Arq Mako, Jawarish Amla Sada, Jawarish Anarain, Sharbat Arba, Sharbat Kasni, Sharbat Muhallil and Sharbat Sandal are recommended in "Bilious Liver".

Sluggish Liver

Dehlvi Galenus Pills, Dehlvi Jawarish Galenus-SF, Dehlvi Jawarish Mastic-SF, Jawarish Bisbasa, Jawarish Jalinus, Jawarish Mastagi, Kasni Capsules, Kuliah Bazoori-SF, Mako Kasni Ras, Mastagi Capsules and Sharbat Bazoori Motadil are recommended in "Sluggish Liver".

Cholecystitis & Gall Bladder Stone

Kushta Hajrul Yahud

Useful in kidney stone, gallstone and stone in the ureter.

Dosage: 30 to 60 mg. or 1 or 2 tablets with 5 g. Majun Sangsare Mahi.

Majun Hajrul Yahud

Useful in kidney stone, gallstone and stone in the ureter.

Dosage: 5 g. in the morning and evening with water or 1 tablet Iksir Gurda.

Roghan Zaitoon

Useful in gallstones and constipation. It also strengthens the nerves.

Usage: 25 ml at night mixed in a glass of milk.

Note: Habbe Salajit is also recommended in "Cholecystitis & Gall Bladder Stone".

Ascites

Dehlvi D.Ward Capsules, Dehlvi Dinar-SF, Dehlvi Majun D.Ward-SF, Habbe Salajit, Iksir Jigar, Irovita, Jigron Syrup & Capsules, Jigron-SF, Kushta Khabsul Hadid, Liv-On Tablets, Majun Dabidul Ward, Sharbat Dinar and Sharbat Faulad are recommended in "Ascites".

Diseases of the Spleen

Splenitis (Enlargement of the Spleen)

Dehlvi D.Ward Capsules, Dehlvi Majun D.Ward-SF, Habbe Salajit, Jigron Syrup & Capsules, Jigron-SF, Liv-On Tablets, Majun Dabidul Ward, Mako Capsules, Mako Kasni Ras and Sharbat Injeer are recommended in "Splinitis".

Jaundice

Dehlvi D.Ward Capsules, Dehlvi Majun D.Ward-SF, Gilo Capsules, Habbe Salajit, Jawarish Anarain, Jawarish Ud Tursh, Jigron Syrup & Capsules, Jigron-SF, Kasni Capsules, Kuliah Bazoori-SF, Kulyati Capsules, Liv-On Tablets, Majun Dabidul Ward, Mako Kasni Ras, Sharbat Bazoori Motadil, Sharbat Kasni, Sharbat Muhallil, Shilajit Capsules and Shilajit-Care are recommended in "Jaundice".

Anaemia

Kushta Khabsul Hadid

Strengthens the stomach and liver. Increases formation of healthy and pure blood.

Dosage: 60 mg. or 2 tablets in the morning on an empty stomach with 5 g Dehlvi Jawarish Galenus-SF or Jawarish Jalinus or 1 pill of Dehlvi Galenus Pills.

Note: Habbe Salajit, Irovita, Kushta Faulad, Kushta Tila, Noshdaru, Sharbat Faulad, Shilajit Capsules, Shilajit-Care and Spirulina Capsules are also recommended in "Anaemia".

Obesity

Arq Zeera

Reduces obesity. It is also useful in flatulence.

Dosage: 75 ml in the morning and evening. More effective if taken along with Obelin or Safuf Mohazzil.

Obelin

It is a herbal slimming product that helps in reducing obesity without any side-effects that are normally associated with various weight loss techniques, and helps in controlling and normalising the appetite and providing a satisfying feeling so that one does not feel constantly hungry. It dissolves the excess fat gradually. Dietary fads and reducing diets that produce quick results without effort are of doubtful effectiveness in reducing body weight and keeping it down, and most are actually deleterious to health. Available in pills and capsule forms.

Dosage: 2 capsules or pills twice daily 30 minutes before

meals with water or 75 ml Arq Zeera.

Safuf Mohazzil

Helps in reducing obesity without any side-effects.

Dosage: 5 g. with lukewarm water or 75 ml Arq Zeera in the morning and evening.

Vilayati Imli (Garcinia) Capsules

It is an appetite suppressor. The appetite is suppressed by promoting synthesis of glycogen, thus sending the brain signals of satisfaction and fullness sooner. It also interrupts the synthesis of various lipids, fatty acids, LDL cholesterol and triglycerides.

Dosage: 1 or 2 capsules twice daily 30 minutes before meals with water.

Note: Apple Cider Vinegar (Seb Sirka), Arabian Nuskha, Dehlvi Isabghol, Dehlvi Kamoon Capsules, Dehlvi Kamoon-SF, Guggul Capsules, Jawarish Bisbasa, Jawarish Kamuni Mushil and Majun Nankhah are also useful in "Obesity".

Cellulite

Cellulite Control Oil

The powerful combination of therapeutic oils helps to improve blood flow to the cellulite and fatty deposits. It improves the metabolic rate in such tissues and therefore helps to reduce flab from arms, thighs, hips, buttocks and abdomen.

Usage: Massage, knead and rub vigorously in a circular motion every night on hips, thighs and upper arms for 15-20 minutes and cover the area with a hot towel for 15 minutes. Allow it to remain there for 6-8 hours.

Diseases of the Intestines

Diarrhoea and Dysentery

Bael Capsules

It has antidysentric and antidiarrhoeal action. Also useful in management of digestive disturbances like IBS and colitis.

Dosage: 1 capsule twice daily after meals.

Dehlvi Jawarish Mastic-SF

The same benefits of Jawarish Mastagi in a sugar free form.

Dosage: 5 to 10 g in the morning and evening with 125 ml Arq Badiyan or water.

Habbe Pechish

Checks diarrhoea and dysentery and is useful in nervous

debility.

Dosage: 1 pill with Arq Gulab or water.

Habbe Raal

Checks diarrhoea due to weakness of the stomach and intestines. Also useful in chronic dysentery.

Dosage: 1 or 2 tablets after both meals with water.

Habbe Sumaq

Checks diarrhoea due to weakness of the stomach and intestines.

Dosage: 1 pill with water in the morning and at night.

Jawarish Mastagi

Strengthens the stomach, liver and intestines. Stops diarrhoea caused due to gastrointestinal weakness. Checks excessive salivation and urination. Useful in sluggish stomach and liver.

Dosage: 5 to 10 g in the morning and evening with 125 ml Arq Badiyan or water.

Majun Sangdana Murgh

Strengthens the stomach and intestines. Useful in indigestion and stops diarrhoea caused due to gastrointestinal weakness.

Dosage: 5 g. in the morning and evening water.

Mastagi Capsules

Strengthens the stomach, liver and intestines. Stops diarrhoea caused due to gastrointestinal weakness. Checks excessive salivation and urination. Useful in sluggish stomach and liver.

Dosage: 1 capsule in the morning and evening with water.

Safuf Muqliasa

Useful in chronic diarrhoea and dysentery. Gives relief in stomachache and colic pain. Also useful in piles.

Dosage: 5 g. in the morning and evening with water. In dysentery put the powder in the mouth and give the 125 ml extract from 5 g. Resha Khatmi along with 25 ml Sharbat Banafsha.

Sharbat Belgiri

It has antidysentric and antidiarrhoeal action. Also useful in management of digestive disturbances like IBS and colitis.

Dosage: 25 to 50 ml mixed with water.

Sharbat Habbul Aas

Strengthens the stomach and intestines. Stops all kinds of diarrhoea. Gives relief in colic pain and stops the blood oozing in diarrhoea.

Dosage: 25 to 50 ml mixed with water.

Note: In "Diarrhoea and Dysentery" due to weakness of intestines, Arq Ajeeb, Arq Badiyan, Dehlvi Isabghol, Jawarish Amla Sada, Jawarish Anarain, Jawarish

Tabashir, Mochras Capsules, Noshdaru, Pudinol, Qurs Malti Basant, Sharbat Anar Shirin and Sharbat Anjabar are also recommended.

Constipation

Constivac

Effective when bowels are constipated without apparent cause. Also useful in dry, hard and dark coloured stools. Expels waste matter from the intestines. Strengthens the stomach.

Dosage: 2 pills at night with water.

Dehlvi Isabghol

Isabghol (Psyllium Husk) has been used in Unani & Ayurvedic medicine for thousands of years both for its laxative (with warm milk/water) and antidiarrhoeal (with cold water) action. It restores proper bowel movements by stimulating nutritional programme of digestive system and in treatment of chronic constipation, especially when the condition results from an over-tensed or over-relaxed bowel. By maintaining a higher water content within the large bowel, the husks increase the bulk of the stool, easing its passage. It is effective in treating irritable bowel syndrome (IBS). It is also reputed to soothe gastric inflammation, as well as urinary tract infections (UTI). Contrary to expectation, it is a useful remedy for diarrhoea. Because the husk tends to swell and create a feeling of fullness, it can help curb appetite. Also useful for colitis, dysentery, urethritis, cystitis, ulcers, gastritis, high LDL cholesterol level and high triglycerides. Also helps to reduce risk of heart attack by decreasing serum cholesterol through proper excretion of bile acids. Also helps in eliminating accumulated toxic, chemicals and excessive waste products from the body.

In several studies conducted, researchers found that seriously obese people who took few teaspoons of Isabghol with water before meals lost more weight than those who did not.

Dosage: With pack.

Isab-Care

It irritates the lining of the large intestine, causing the muscles to contract strongly resulting in bowel movement and also stops fluid being absorbed from the large bowel helping to keep the stool soft. Removes heaviness of the stomach. Isab-Care is not habit forming and is safe for long-term therapy.

Dosage: 5 g mixed with water at night.

Itrefal Mulayyan

Removes constipation. Also useful in headache, migraine and vertigo.

Dosage: 5 to 10 g. at night with lukewarm milk or water.

Jawarish Kamuni Mushil

Useful in diseases of the gall bladder and stomach. Removes constipation and excessive salivation.

Dosage: 5 g. in the morning on an empty stomach with water or 100 ml Arq Badiyan. For constipation increase the dose to 10 g.

Majun Injeer

Very useful in chronic constipation.

Dosage: 10 g. at night with milk or water.

QabzKure Syrup & Pills

They are a combination of non habit-forming natural ingredients that stimulate the bowels into function without chemical stimulants, allowing the intestines to get going again without damaging the nerves. They help to lubricate stool through the digestive tract and are safe for infants as well as adults. They also do not weaken the muscles and nerves like the use habitual laxative can.

Dosage: Syrup: 10 ml at night with lukewarm water.

Pills: 2 pills at night with water.

Qurs Mulayyan

Expels waste matter from the intestines and stomach. Removes constipation.

Dosage: 2 tablets at night with lukewarm milk or water.

Roghan Arandi

Removes constipation and gives relief in colic pain.

Usage: 25 to 50 ml along with 250 ml lukewarm milk.

Senna Capsules

It is an effective laxative and purgative and is a particularly useful remedy for the occasional bout of constipation and is useful for evacuation relief in cases of fissures, haemorrhoids, after rectoanal operations, and in preparation of diagnostic intervention in the gastrointestinal tract. It irritates the lining of the large intestine, causing the muscles to contract strongly resulting in bowel movement in about 10 to 12 hours after ingestion and also stops fluid being absorbed from the large bowel helping to keep the stool soft. It is sure and safe even for children (over 12 years of age) and weak and elderly persons. Also useful in intestinal worms, rheumatism, sciatica, gout, hip pain and lumbago.

Dosage: 2 capsules at night with water. Combine with 1 capsule of Ginger or Fennel to increase its palatability. Do not exceed recommended dosage. This product is not to be used for more than 10 days consecutively as prolonged use may result in dependence and it can cause what's known as lazy bowel syndrome - the inability to move stool without chemical stimulation. Rectal bleeding or failure to have a bowel movement after use of a laxative may indicate a serious condition. Discontinue use and consult a doctor.

Senn-Care

Contains Senna Leaves which are very effective laxative and purgative and a particularly useful remedy for occasional bouts of constipation. It irritates the lining of the large intestine, causing the muscles to contract strongly resulting in bowel movement and also stops fluid being absorbed from the large bowel helping to keep the stool soft. Removes heaviness of the stomach. Senn-Care is not habit forming and is safe for long-term therapy.

Dosage: 2 capsules at night with water.

Powder: 5 g. with water at night.

Sharbat Arzani

Effective in constipation. Also useful in cold, catarrh and cough and expels phlegm from the chest.

Dosage: 25 ml mixed with 125 ml Arq Badiyan.

Sharbat Injeer

Removes constipation. Expels phlegm from the chest and is also useful in inflammation of the spleen.

Dosage: 25 ml mixed with water at night.

Triphala Aloe vera Ras

Along with all the efficacies of Aloe vera Ras, natural colon cleanser, relieves constipation, reduces lipid levels in liver and heart, reduces high blood pressure & some forms of cholesterol, improves eyesight.

Dosage: 20-30 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Triphala Ras

Natural colon cleanser, relieves constipation, strengthens digestive system, relieves headache, prevents premature greying of hair and hair fall and brings healthy shine to skin and hair, delays ageing, improves eye-sight, detoxifies the liver, relieves from acidity.

Dosage: 20-30 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Note: Dehlvi Dinar-SF, Dehlvi Suranjan Mufasil Capsules, Habbe Kabid Naushadri, Habbe Muqil, Habbe Papita, Habbe Suranjan, Habbe Tinkar, Itrefal Kishnizi, Itrefal Muqil, Itrefal Zamani, Jawarish Kamuni Kabir, Jawarish Meda, Khamira Banafsha, Lauq Sapistan Khayar Shambari, Majun Suranjan, Riyaheen Chooran, Roghan Badam Shirin, Roghan Zaitoon, Sharbat Ahmed Shahi, Sharbat Dinar and Triphala Capsules also remove "Constipation".

Piles and Fistula

Habbe Bawasir Badi

Useful in flatulent piles.

Dosage: 2 pills in the morning on an empty stomach with water.

Habbe Bawasir Khooni

Useful in bleeding piles.

Dosage: 2 pills in the morning and evening with water.

Habbe Muqil

Useful in both types of piles and removes constipation. Strengthens the stomach.

Dosage: 2 pills at night with water.

Habbe Muqil Jadid

Useful in both types of piles and removes constipation. Strengthens the stomach.

Dosage: 2 pills at night with water.

Habbe Rassaut

Useful in bleeding piles.

Dosage: 2 pills in the morning and evening with water.

Itrefal Muqil

Useful in both types of piles. Also removes constipation.

Dosage: 5 to 10 g. at night with water.

Marham Bawasir

Relieves pain and itching in both types of piles and promotes swift and clean repair of the damaged tissues.

Usage: Apply locally once or twice a day before and after evacuation.

Mochras Capsules

It is useful in dysentery, diarrhoea, bleeding piles, colitis, haemoptysis in pulmonary tuberculosis, influenza and menorrhagia.

Dosage: 1 capsule twice daily after meals with water.

Pyleena Marham (Ointment) & Capsules

Effective treatment for bleeding haemorrhoids, fissures, internal and external piles. Relieves pain and itching in both types of piles and promotes swift and clean repair of the damaged tissues.

Usage: Marham: Apply locally once or twice a day before and after evacuation.

Capsules: 2 capsules twice daily after both meals.

Qurs Bawasir Khas

Effective in both types of piles. Stops bleeding.

Dosage: 2 tablets in the morning on an empty stomach or at night with water.

Roghan Neem

Purifies the blood and is useful in itch. Kills the germs and is also useful in killing lice.

Usage: Locally apply 3 or 4 drops and keep cotton drenched in the oil below the anus. For killing lice, apply on the scalp.

Note: Dehlvi Isabghol, Dehlvi Galenus Pills, Dehlvi Galenus-SF, Itrefal Kishnizi, Jawarish Bisbasa, Jawarish Jalinus, Qurs Bandish Khoon, Safuf Muqliasa, Shilajit Capsules and Shilajit-Care are also recommended in "Piles and Fistula".

Intestinal Worms

Itrefal Deedan

Kills and removes various intestinal worms specially tape worms. Checks future growth.

Dosage: 5 to 10 g. at night with water for 3 days continuously. On the 4th day 2 tablets of Qurs Mulayyan with water should be given at night.

Qurs Deedan

Kills and removes various intestinal worms. Checks future growth.

Dosage: 2 tablets in the morning and evening with water. Roghan Arandi 25 to 50 ml mixed with warm milk should be given once a week to remove the dead worms from the stomach.

Note: Senn-Care is also recommended in "Intestinal Worms".

Colic

Arq Ajeeb, Arq Ajwain, Arq Badiyan, Dehlvi Dinar-SF, Dehlvi Kamoon Capsules, Dehlvi Kamoon-SF, Itrefal Zamani, Jawarish Kamuni, Jawarish Kamuni Kabir, Jawarish Kamuni Mushil, Pudinal, Roghan Arandi and Sharbat Dinar are recommended in "Colic".

Diseases of the Pancreas, Kidney & Urinary Bladder

Renal and Bladder Calculus

Iksir Gurda

Useful in kidney stone and stone in the bladder. It breaks the stone and passes it through the urinary tract. It also clears the excretion of certain substances formed due to metabolic disorder that encourages kidney stone formation.

Dosage: 1 tablet with 5 g. Majun Hajrul Yahud in the morning and evening. Greasy, sour and spicy food, pulses and rice should be avoided in the diet.

Kulthi Capsules

Employed to reduce obesity and is also useful in kidney stone and oedema. Given to females during parturition to

promote discharge of the lochia.

Dosage: 2 capsules twice daily before meals with water.

Majun Aqrah

Useful in kidney stone and stone in the bladder. It breaks the stone and passes it through the urinary tract. Gives relief to pain.

Dosage: 5 g. in the morning and evening with 1 tablet Qurs Dawai Gurda.

Majun Sangsare Mahi

Useful in kidney and bladder stone. It also clears the excretion of certain substances formed due to metabolic disorder that encourages kidney stone formation.

Dosage: 5 g. in the morning and evening with 1 tablet Qurs Dawai Gurda.

Qurs Dawai Gurda

Useful in kidney stone and stone in the bladder. It breaks the stone and passes it through the urinary tract. It also clears the excretion of certain substances formed due to metabolic disorder that encourages kidney stone formation.

Dosage: 1 tablet with 5 g. Majun Sangsare Mahi or water in the morning and evening.

Sharbat Aloo Baloo

Induces excessive urination. It breaks the kidney and gall bladder stone and passes it through the urinary tract.

Dosage: 25 to 50 ml in the morning and evening with water.

UniCal

It is useful in urinary calculi. It disintegrates the stone and flushes it out through the urinary tract. It also clears the excretion of certain substances formed due to metabolic dysfunction or poor diet that encourages kidney and bladder stone formation. Taken daily as a dietary supplement, it keeps the kidneys and urinary tract flushed and working at optimum efficiency. It is especially helpful for persons with predisposing factors such as low urine output, high mineral content in diet and urinary crystalloid-colloid imbalance.

Dosage: 1 capsule twice daily with plenty of water.

Note: Dehlvi Galenus Pills, Dehlvi Galenus-SF, Gokhru Capsules, Habbe Salajit, Jawarish Jalinus, Kuliah Bazoori-SF, Kulyati Capsules, Kushta Hajrul Yahud, Majun Hajrul Yahud, Punamava Capsules, Sharbat Bazoori Motadil, Shilajit Capsules and Shilajit-Care are also recommended in "Renal and Bladder Calculus".

Urinary Tract Infection

Punarnava Capsules

Useful in oedema, biliousness, hepatitis, ascites, scanty

urine, kidney stone and insomnia. It has also been widely used for the treatment of dyspepsia, jaundice, enlargement of spleen and abdominal pain.

Dosage: 2 capsules twice daily before meals with water.

Note: Dehlvi Isabghol, Jaman Sirka, Kasni Capsules, Kuliah Bazoori-SF, Kulyati Capsules and Sharbat Bazoori Motadil are also recommended in "Urinary Tract Infection".

Weakness of the Kidney & Urinary Bladder

Kulyati Capsules

It is a perfect herbal regime, developed and formulated with unique herbs on the scientific concept, which exerts overall therapeutic activity with safety in various types of urinary disorders like kidney stone, urinary tract infections and prostate associated disorders. It supports healthy urinary function, kidney function and efficiency, and helps maintain a normal balance of fluids in your body.

Dosage: 2 capsules twice daily after meals.

Note: Dehlvi Chyawanprash Special, Dehlvi Falasafeen Capsules, Dehlvi Falasafeen-SF, Dehlvi Galenus Pills, Dehlvi Galenus-SF, Dehlvi L.Kabir Capsules, Dehlvi L.Kabir-SF, Dehlvi Zaroon Sada Capsules, Diab-Eaze, Jawarish Jalinus, Jawarish Zaruni Ambari Banuskha Kalan, Jawarish Zaruni Sada, Kushta Baiza Murgh, Kushta Zamarrud, Labub Kabir, Majun Anjdan, Majun Falasfa, Majun Jalinus Lulvi, Majun Kundur, Majun Masikul Bol, Majun Piaz and Punarnava Capsules are also recommended in "Weakness of the Kidney & Urinary Bladder".

Diabetes Insipidus

Kushta Baiza Murgh

Useful in diabetes. Stops excessive urination and strengthens the kidneys. Also useful in spermatorrhoea and leucorrhoea.

Dosage: 60 mg. or 2 tablets with 10 g Dehlvi Jawarish Mastic-SF or Jawarish Mastagi or Butter and a glass of milk.

Kushta Zamarrud

Strengthens the liver and heart. Also strengthens the bladder and stops excessive urination. Useful in diabetes, albuminuria (discharge of albumin in the urine) and in cough.

Dosage: 30 mg. or 1 tablet in the morning with 5 g. Jawarish Zaruni Ambari Banuskha Kalan.

Majun Kundur

Stops excessive urination. Also useful in incontinence of urine and bed wetting. Strengthens the kidney and urinary bladder.

Dosage: 5 g. in the morning and evening with 30 mg. or 1 tablet Kushta Baiza Murgh or Kushta Khabsul Hadid.

Majun Masikul Bol

Strengthens the urinary bladder. Useful in incontinence of urine, diabetes and weakness of the liver and urinary bladder.

Dosage: 5 g. in the morning or at night with water.

Note: Dehlvi Falasafeen Capsules, Dehlvi Falasafeen-SF, Dehlvi Galenus Pills, Dehlvi Galenus-SF, Dehlvi Jawarish Mastic-SF, Dehlvi Zaroon Sada Capsules, Diab-Eaze, Habbe Salajit, Jawarish Jalinus, Jawarish Mastagi, Jawarish Zaruni Ambari Banuskha Kalan, Jawarish Zaruni Sada, Majun Anjdan, Majun Falasfa, Mastagi Capsules, Neem Capsules, Shilajit Capsules and Shilajit-Care are also recommended in "Diabetes Insipidus".

Diabetes Mellitus

Amla Aloe vera Karela Jamun Ras

With all the efficacies of Amla, Aloe vera, Jamun and Karela, regulates blood sugar and sugar metabolism, allays unquenchable thirst of diabetes.

Dosage: 20 ml twice daily. 20-30 ml of water can be added according to taste.

Diab-Eaze

It is a comprehensive herbal formulation containing time-tested and anti-diabetic herbs that have been recommended for more than 5000 years in Ayurveda and Unani system. These medicinal herbs make Diab-Eaze a comprehensive approach to the management of diabetes mellitus. It balances blood sugar levels, thereby reducing or removing the need for insulin or hypoglycemic medication. Furthermore, it reduces cravings for sweet foods, improves circulation, especially to the feet and hands and improves blood flow to optic nerves to prevent diabetes-related eye diseases. It also helps promote symptomatic relief of complaints like weakness, giddiness, pain in legs, body ache, polyuria and pruritus. Diab-Eaze does not contain any form of sulfonamides or biguanides (often found in allopathic drugs). It makes it possible to avoid the side effects most current with these products (skin problems or excessive lactic acid).

Dosage: 2 capsules two or three times a day, depending on severity of symptoms. Dosage can be reduced once blood sugar levels stabilise.

Gurmar Capsules

This herb has been given the name 'gur-mar' meaning 'sugar destroyer' because of its property of abolishing the taste of sugar. It has the unique property of inhibiting the taste of sugar. When Gurmar is taken before eating, the molecules of one of its constituents, gymnemic acid (whose molecular structure is similar to that of sugar), fill the sugar-taste receptor sites on the tongue for one to two hours, thus preventing the taste buds from reacting to the

sugar molecules in food and blocking the taste of sugar. It blocks up to 50% of the absorption of sugar. In doing so, it will not affect the taste of food but will suppress the desire of sweets. This is one of the main herbs used for healing diabetes mellitus. It has been believed, therefore, that it might neutralise the excess sugar present in the body in diabetes mellitus. The leaves raise insulin levels in Type 2 (adult-onset) diabetes by regeneration of the cells in the pancreas that secrete insulin.

Dosage: 1 capsule twice daily before meals with water. It needs to be taken for at least 3-4 weeks before the benefits of taking it can be experienced. Optimally, it can take anywhere between 6 months and 2 years to experience the full range of benefits. Individual results can vary, depending on the nature and seriousness of the condition for which Gurmar is being consumed.

Jamun Sirka

It is effective as a medicine in diabetes. Jamun sirka controls the rise in blood sugar level after the consumption of a high-carbohydrate meal. Jamun Sirka has a cooling effect on the body and heart. Jamun Sirka is also effective in kidney related problems and urinary tract infections. It controls burning, pain and foul smelling of urine. It is also effective in low urine output. Jamun Sirka controls the problem of hyperacidity. It acts as a digestive and carminative agent, and gives relief in colitis, indigestion, stomach diseases. It relieves flatulence, improves digestive power, controls nausea and vomiting, and activates the liver and spleen. Jamun Sirka is also effective in enlargement of liver & spleen and jaundice.

Dosage: Can be given in the dose of 10 – 15 ml in a day.

Jamun Ras

Regulates blood sugar, helpful in skin related ailments, improves insulin secretion, helps pass the excess of sugar during digestion and absorption by liver, beneficial in frequent urination and amoebiasis.

Dosage: 20 ml twice daily. 20-30 ml of water can be added according to taste.

Karela Capsules

It purifies the blood and is useful in diabetes. At least three different groups of constituents in Karela Capsules have been reported to have hypoglycemic (blood sugar lowering) or other actions of potential benefit in diabetes mellitus. These have shown to significantly improve glucose tolerance without increasing blood insulin levels, and to improve fasting blood glucose levels. Blood and urine sugar levels and post-prandial (after eating) blood glucose levels also fall.

Dosage: 2 capsules daily in the morning.

Karela Jamun Ras

Full of Jamun and Karela Ras efficacy.

Dosage: 10-15 ml twice daily. 20-30 ml of water can be added according to taste.

Karela Ras

Regulates blood sugar and Glucose Metabolism, natural blood purifier, stimulates liver for proper secretion of digestive enzymes, improves insulin secretion, helps pass the excess of sugar during digestion and absorption of liver, and strengthens immune system.

Dosage: 10 ml twice daily. 20-30 ml of water can be added according to taste.

Methi Capsules

Lowers blood sugar levels in Type 2 diabetes mellitus, reducing resistance to insulin and removing excess triglycerides in the blood. The fibre and saponins in Methi are known to lower elevated cholesterol and blood lipids, including in those with diabetes. Also used to induce childbirth and to increase breast-milk flow in nursing mothers, for which it is perfectly safe, and also has a reputation of stimulating development of the breasts. One of its constituent, diosgenin, is employed to make synthetic estrogen, and it is believed to be the activity of this constituent that encourages the growth of the breast tissue. Normalises a women's system after delivery. The herb may also be used as a natural form of hormone replacement therapy to treat hot flashes associated with menopause.

Dosage: 2 capsules twice daily after meals with water.

Shugreen

It is a comprehensive herbal formulation containing time-tested and anti-diabetic herbs that have been recommended for more than 5000 years in Ayurveda and Unani system. These medicinal herbs make Shugreen a comprehensive approach to the management of diabetes mellitus. It balances blood sugar levels, thereby reducing or removing the need for insulin or hypoglycemic medication. Furthermore, it reduces cravings for sweet foods, improves circulation, especially to the feet and hands and improves blood flow to optic nerves to prevent diabetes-related eye diseases. It also helps promote symptomatic relief of complaints like weakness, giddiness, pain in legs, body ache, polyuria and pruritus. Shugreen does not contain any form of sulfonamides or biguanides (often found in allopathic drugs). It makes it possible to avoid the side effects most current with these products (skin problems or excessive lactic acid).

Usage: 1/2 gm. to be rubbed daily at night on the penis leaving the tip for about 8 to 10 minutes and a soft cloth is to be tied. In the morning open the cloth and wash the penis with warm water. After application if pimples start appearing, which is a good sign, stop the usage of the Tila and start applying Roghan Chameli three times a day. When the pimples go away, again apply the Tila. Repeat the process till cured. Care is to be taken that on application of the Tila, semen should not be ejaculated. In such case it will be harmful. Horse riding, cycling and sexual intercourse should be avoided during the treatment.

Wajid Nawabi Oil

Strengthens the penis and increases blood circulation of the penile tissues.

Usage: Capsule: 2 capsules twice a day with meals. For best and most significant gains, we recommend a usage for a period of 6 months.

Oil: Rub lukewarm on the penis leaving the tip.

Note: Al Ahmer, Dehlvi Asab Plus, Dehlvi L.Kabir Capsules, Dehlvi L.Kabir-SF, Dehlvi Salabmisri Murakkab Capsules, Dehlvi Salabmisri-SF, Kushta Tila, Labub Kabir, Majun Jalinus Lulvi, Majun Salab and Tila Mumsik Khas are also recommended in "Atrophy of Penis & Loss of Erection".

Benign Prostatic Hyperplasia (BPH)

Prostate-BH

A comprehensive herbal formulation containing time-tested botanicals that are useful in the treatment of benign prostatic hyperplasia (BPH), or benign prostatic hypertrophy. It relieves the symptoms of BPH with reduction in prostate weight. It also improves urinary flow rate while reducing post-void residual urine. It also inhibits prostatic stromal proliferation.

Dosage: 2 capsules twice a day with water.

Note: Gokhru Capsules is also recommended in "BHP".

Orchitis

Zamad Warm Unseyain

An external application which is useful in orchitis.

Usage: Mix 10 g. of Zamad with water of Mako (Black Nightshade) and apply on the testicles. Tie a Leaf of Arandi.

Note: Itrefal Shahtara and Majun Ushba are

recommended for internal use in "Orchitis".

Itching of the Testicles

Majun Chobchini, Sharbat Unnab, SkinClear Capsules, SkinClear Syrup and SkinClear-SF are recommended in "Itching of the Testicles".

Diseases of Females

Lecorrhoea & Metritis

Habbe Marwaridi

Checks leucorrhoea and metritis. Strengthens the chief organs of the body. Removes general debility.

Dosage: One pill with milk or 20 ml Arq Amber in the morning and evening. In summers it should be given only with water. Not to be given during pregnancy. Greasy, sour, spicy, rich and flatulent producing food should be avoided in the diet.

Leuco-Cure

It has a stimulatory action on the endometrium. Its tonic property improves uterine circulation and its antimicrobial and astringent actions on the mucus membrane of the genital system control leucorrhoea. Leuco-Cure also improves general health and relieves the symptoms like itching, irritation, backache, stomachache, excessive urination, lethargy and debility associated with leucorrhoea.

Dosage: 2 capsules twice a day with milk.

Majun Mochras

Strengthens the uterus and is useful in leucorrhoea.

Dosage: 10 g. to be given in the morning with a glass of milk.

Safuf Selan

Useful in leucorrhoea.

Dosage: 5 g. in the morning with water.

Selani

Recommended in leucorrhoea with vaginal pruritus, burning and discharge. Also useful in itching, irritation, backache, stomachache, excessive urination, lethargy and debility due to leucorrhoea. Strengthens the uterus.

Dosage: 2 tablets in the morning on an empty stomach with a glass of milk. More effective if given with butter mixed in milk. Heavy, gas-forming, sour, oily and rich food should be avoided. Diet should be light. Food should be taken at least 2 hours before going to sleep.

Note: Ashoka Capsules, Dehlvi D.Ward Capsules, Dehlvi

D.Ward-SF, Dehlvi Khamira Moti-SF, Femone Jelly, Iksir Khawateen, Iksir Khawateen-SF, Khamira Marwareed, Kushta Baiza Murgh, Kushta Sadaf, Majun Dabidul Ward, Majun Muqavvi Reham, Majun Supari Pak, Marham Dakhliyun, Musli Safed Capsules, Satawar Capsules and Supari Pak powder are also recommended in "Leucorrhoea & Metritis".

Atony of the Uterus

Majun Muqavvi Reham

It strengthens the uterine functions and checks complaints arising from weakness of the uterus. Cures leucorrhoea, recurrent miscarriages and premature deliveries.

Dosage: 5 g. on an empty stomach in the morning with a glass of milk.

Supari Pak Powder

Useful in leucorrhoea and excessive menstruation. Increases the retentive power of the uterus. Also useful in pain of the joints and back, weakness after delivery, vomiting and dyspepsia. Also increases retention power and density of semen in males.

Dosage: In ordinary cases 5 to 10 g. with warm milk before breakfast. In chronic cases, 5 to 10g. in the morning and evening with warm milk. Can also be used by males in the above dose for their disorders. To be discontinued during menses and from the ninth month of pregnancy to twenty days after delivery. Tea, coffee, sour, heavy, oily and gas-forming foods should be avoided. Milk, butter, dry fruits and wheat as well as other nourishing foods are advised.

Note: Arq Maullaham Do Atisha, Arq Maullaham Khas, Ashoka Capsules, Femone Jelly, Iksir Khawateen, Iksir Khawateen-SF, Majun Hamal Ambari Alvi Khani, Majun Supari Pak and Satawar Capsules are also recommended in "Atony of the Uterus".

Threatened Abortion

Majun Hamal Ambari Alvi Khani

Strengthens the uterus. Recommended for women with a history of miscarriages or for women whose offsprings die at birth or are born weak.

Dosage: 5 g. with a glass of milk in the morning from the 3rd month of pregnancy to the end of the 7th month of pregnancy.

Note: Majun Muqavvi Reham and Satawar Capsules are also recommended in "Threatened Abortion".

Inability to Conceive

Femone Jelly

Helps in increasing the retentive power of the uterus.

Removes debility after child birth. Useful in leucorrhoea and backache.

Dosage: 10 g. with a glass of milk in the morning.

Habbe Hamal

It corrects internal disorders that result in the inability to conceive.

Dosage: 2 pills to be given with 250 ml milk daily in the morning and evening for 3 days. On the 4th day sexual intercourse is recommended. Treatment is to be continued for two or more months or until conception occurs.

Majun Supari Pak

Helps in increasing the retentive power of the uterus. Removes debility after child birth. Useful in leucorrhoea and backache. Also increases retention power in males.

Dosage: 10 g. with a glass of milk in the morning.

Note: Majun Muqavvi Reham and Satawar Capsules are also recommended in "Inability to Conceive".

Metrorrhagia

Ashoka Capsules

It has been efficacious in regularising menstrual disturbances without producing any side effects. Its effect on the ovarian tissue may produce an estrogen-like activity that enhances the repair of the endometrium and stops bleeding. In metrorrhagia, in addition to decreasing the uterine bleeding, it regularises the interval between two cycles. Besides treating the symptoms of fatigue and generalised weakness, the use of the herb provides immense relief from painful menses, premenstrual syndrome and nonspecific leucorrhoea. It is well established for its effectiveness in dysmenorrhoea and tenderness of the uterus.

Dosage: 1 capsule two times a day.

Menorrhagia

Femone Jelly, Kushta Aqeeq, Kushta Marjan, Kushta Sadaf, Majun Mochras, Majun Supari Pak, Mochras Capsules, Qurs Bandish Khoon, Qurs Kehrubah and Sharbat Anjabar are recommended in "Menorrhagia".

Dysmenorrhoea & Amenorrhoea

Habbe Mudir

Normalises the diminished menstrual bleeding.

Dosage: 1 pill to be taken with water 3 times a day, 3 days in advance before the beginning of menstrual cycle.

Iksir Khawateen

It regulates the secretory functions of the ovaries and abnormal menstrual periods and pregnancy. It acts

directly on the uterine musculature and has an astringent and antiseptic effect on the mucus membrane of the urinogenital system. It has stimulating effect on the endometrium and the ovaries. It also eliminates distress and pain before and during menstruation, tones up the nerves, acts as a uterine tonic and regulates the development of female sexual characteristics. Also checks nonspecific leucorrhoea.

Dosage: In Amenorrhoea, metritis and in premenstrual syndrome 10 ml (2 teaspoonful) daily with water. In Dysmenorrhoea, Hypomenorrhoea and nonspecific Leucorrhoea 10 ml daily with lukewarm milk and in Metrorrhagia and Menorrhagia 10 ml daily with fruit juice. To be discontinued during menstruation.

Iksir Khawateen-SF

The same benefits of Iksir Khawateen in a sugar free form.

Dosage: In Amenorrhoea, metritis and in premenstrual syndrome 10 ml (2 teaspoonful) daily with water. In Dysmenorrhoea, Hypomenorrhoea and nonspecific Leucorrhoea 10 ml daily with lukewarm milk and in Metrorrhagia and Menorrhagia 10 ml daily with fruit juice. To be discontinued during menstruation.

ReguLate

It is a comprehensive approach to the management of irregular menstruation, primary and secondary amenorrhoea and oligomenorrhoea. It is non-hormonal herbal product which tones up the female generative organs and promotes regular menstruation.

Dosage: 1 capsule twice daily after meals with water.

Note: Ashoka Capsules and Satawar Capsules are also recommended in 'Dysmenorrhoea & Amenorrhoea'.

Pre and Post Menopausal Symptoms

Menso-P

It is a specially formulated herbal compound made for women during either their pre-menopausal and/or their menopausal stages. Many of the herbs used contain plant estrogens that are hormone regulators of natural progesterone and estrogen. Many common symptoms of menopause are hot flushes (sudden intense waves of heat and sweating), irritability, muscle pain, changes in sexual desire, night sweats, headaches, frequent urination, early wakening, vaginal dryness, mood changes, insomnia, conditions commonly associated with PMS, and weight gain. Menso-P is used to alleviate the onset of these symptoms and protect bone density by assisting bones to absorb calcium.

Dosage: 2 capsules with milk twice a day. Best used for 6 months or more.

Note: Ashoka Capsules, Methi Capsules, Rooh Arq Gulab and Satawar Capsules are also recommended in "Pre and Post Menopausal Symptoms".

Vaginal Laxation

Femone Jelly, Habbe Marwaridi, Majun Mochras, Majun Supari Pak, Satawar and Selani are recommended in "Vaginal Laxation".

Pruritus Vulvae (Vulvar itching)

Femone Jelly, Itrefal Shahtara, Majun Mochras, Selani and Sharbat Unnab are recommended in "Pruritus Vulvae".

Prolapse of the Uterus

Ashoka Capsules, Femone Jelly, Majun Mochras, Majun Muqavvi Reham and Majun Supari Pak are recommended in "Prolapse of the Uterus".

Depressed Libido

Femone Capsules

It is a unique herbal blend that enhances sexual, mental and physical satisfaction by increasing blood flow to the female genitals. Sexual satisfaction is achieved, making physical and mental satisfaction more attainable and also stimulating vaginal lubrication, relaxing vaginal muscles and increasing sexual pleasure. Femone has been effective for women who report difficulty in achieving orgasm. It allows women to experience more pleasure during sexual activity after increasing sensitivity to areas of the female genital that are important in sex. Femone also increases intensity of orgasm and is also very useful in general lethargy and general debility.

Dosage: 1 capsule at night with milk 1 hour prior to sexual activity and at least 1 hour after dinner. In cases of general lethargy and general debility, 1 capsule can be given once in the morning with water.

Satawar Capsules

Satawar is perhaps best known as a female rejuvenative. It is useful for infertility, decreased libido, threatened miscarriage, menopause, leucorrhoea, menstrual cramps and has the ability to balance pH in the cervical area. It is used to control the symptoms of PMS, including breast tenderness and abdominal bloating, amenorrhoea, dysmenorrhoea, leucorrhoea and menopause. It is also useful in pelvic inflammatory disease like endometriosis. It also supports deeper tissue and builds blood and so it helps to remove infertility, prepare the womb for conception, prevent miscarriage and acts as a post-partum tonic where it helps to increase lactation and normalize the uterus and the changing hormones. It plays an important role in preserving women's long term health.

Dosage: 1 capsule twice daily before meals with water.

Note: Dehlvi L.Kabir Capsules, Dehlvi L.Kabir-SF, Femone Jelly, Habbe Amber Momyai, Konch Capsules

and Labub Kabir are also recommended in “Depressed Libido”.

Underdeveloped Breasts

FirmUP Capsules

Promotes healthy breast tissue development. The ingredients have been selected and formulated for their estrogenic like qualities. The ingestion of these botanicals stimulates the body to replicate the process of the growing stage experienced during puberty. The mammary glands are re-awakened and new, healthy breast tissue develops, while existing tissue plumps out. FirmUP Capsules not only keep the breasts firm, they visibly enhance and uplift sagging breasts. Full-figured women with large or sagging breasts will report that breast size remains stable or increases with firmness. The process is natural, safe and highly effective and is non-hormonal.

Dosage: 2 capsules twice a day with meals along with a full glass of water. Results start showing in just 20 days. However, you shall experience full firmness in 3 to 6 months. For better results, use with FirmUp Lotion.

FirmUP Lotion

Promotes healthy breast tissue development. The ingredients stimulate skin tissue in the mammary glands and encourage it to start growing again. It not only keeps the breasts firm, but visibly enhances and uplifts sagging breasts. Full-figured women with large or sagging breasts will report that breast size remains stable or increases with firmness. The process is natural, safe and highly effective.

Usage: Use your finger tip to take the required amount of cream for each breast. Apply and gently massage with your palm using circular motion and upward strokes for about 3 to 5 minutes or till the cream is fully absorbed. Massage gently with soft hands by moving your right hand clockwise and left hand counter clockwise in circular motion while massage and avoid touching nipples during massage. For best result, apply twice daily, in the morning and night. For faster results use along with FirmUp Capsules.

Note: Methi Capsules are also recommended for “Underdeveloped Breasts”.

Sterility

Dehlvi L.Kabir Capsules, Dehlvi L.Kabir-SF, Femone Jelly, Gokhru Capsules, Labub Kabir, Majun Mochras, Majun Muqavvi Reham and Majun Supari Pak are recommended in “Sterility”.

Hysteria

Dawa-ush-Shifa, Dehlvi Gaozabani Ambari Jadwari-SF, Iksir Khawateen, Iksir Khawateen-SF, Khamira Gaozaban Ambari Jadwar Ud Saleebwala, Majun Muqavvi Reham,

Majun Nijah and Tagar Capsules are recommended in “Hysteria”.

Hardening of the Uterus

Marham Dakhliyun

Useful in enlargement and hardening of the uterus. Also dissolves the glandular nodes.

Usage: Apply after mixing 5 g. of this ointment with 5 ml fresh leaves of Mako with a cotton swab in the vagina. If fresh Mako is not available then use the ointment alone.

Suppressed Post-Partum Lactation

Lacta-M

Contains herbs that are trusted and safe non-hormonal galactagogues, meaning they promote the secretion and flow of milk, improving a lactating women’s milk supply. The use of herbs and natural remedies during lactation dates back to the earliest breast-feeding mothers and has become increasingly popular over the last decade. These herbs contain phytoestrogens that stimulate milk production. Many women cannot nurse because the baby has used up so many minerals in the mother’s body that she has hardly any left for milk production. These herbs not only stimulate milk production, but provide high amounts of minerals needed in order to produce breast milk.

When a mother has a decrease in milk supply, often associated with the use of birth control pills or on occasion, for no obvious reason when the baby is 3 or 4 months old, Lacta-M will often bring the supply back to normal.

Dosage: 2 to 3 capsules twice daily with milk.

Pambadana Capsules

Increases milk flow of nursing mothers by increasing the secretory activity of the mammary gland. It also expels the placenta after birth.

Dosage: 1 or 2 capsules twice daily before meals with water.

Note: Arq Dashmool, Methi Capsules, Musli Safed Capsules and Satawar Capsules are also recommended in “Suppressed Post-Partum Lactation”.

Galactorrhoea

Majun Nankhah is recommended in “Galactorrhoea”.

Post-Partum / Maternity

Arq Dashmool

Useful during maternity, cures bodyaches and fever caused by cold. Its regular use for 2-3 months after

delivery improves lactation and quality of milk.

Dosage: 75 ml in the morning and evening.

Arq Zachcha

Promotes discharge of the lochia after delivery.

Dosage: 125 ml with 25 ml Sharbat Bazoori Motadil in the morning. In winters give lukewarm.

Note: Arq Arba, Arq Mako, Kulthi Capsules, Kuliah Bazoori-SF, Methi Capsules, Pambadana Capsules, Satawar Capsules and Sharbat Bazoori Motadil are also recommended during "Post-Partum / Maternity".

Diseases of the Joints

Rheumatism, Arthritis, Gout & Backache

Aloevera Jelly

Removes rheumatic pains and lumbago and is useful in cough and asthma. Highly beneficial for old aged and youngsters in winter season.

Dosage: 25 g. in the morning or at night with a glass of milk.,

Dehlvi PR-Tablets

Useful in all kinds of pains like rheumatism, gout, sciatica, etc. Expels uric acid deposits from the blood and joints.

Dosage: 2 tablets twice daily with water.

Dehlvi Roghan Phosphorus

Provides symptomatic relief in backache, tennis/golfers' elbow, frozen shoulder, sprains, sciatica, polio in children, muscular pains, muscular cramps, muscles under stress and strain, swelling and stiffness of joints and other musculoskeletal affections.

Usage: Apply a small quantity of the oil with cotton on the affected part and rub gently till absorbed. Repeat the process two or three times a day. Sensation of warmth and emission of fumes which glow in the dark are due to the presence of Phosphorus in the oil.

Dehlvi Suranjan Mufasil

Majun Suranjan is presented in a convenient capsule form. With all the goodness of Majun Suranjan, Dehlvi Suranjan Mufasil meet the demands of this modernized age. Useful in all kinds of pains like rheumatism, gout, sciatica, etc. Expels uric acid deposits from the blood and joints. Removes constipation.

Dosage: 1-2 capsules daily at bed time with water.

Halwa Gheekwar

Removes rheumatic pains and lumbago and is useful in cough and asthma. Highly beneficial for old aged and youngsters in winter season.

Dosage: 25 g. in the morning or at night with a glass of milk.

Kushta Gaodanti

Effective in rheumatic pains, lumbago and sciatica. Cures fevers of all types.

Dosage: 125 mg. or 2 tablets along with 10 g. Majun Suranjan or Majun Jograj Guggul.

Majun Chobchini

Relieves pain in the joints and body-aches due to syphilis. Purifies blood.

Dosage: 5 g. in the morning or evening with water.

Majun Suranjan

Useful in all kinds of pains like rheumatism, gout, sciatica, etc. Expels uric acid deposits from the blood and joints. Removes constipation.

Dosage: 5 to 10 g. with water at bed time.

Nopain Tablets

Provides prompt relief in articular and muscular rheumatism with or without inflammatory and febrile complaints, aches, swelling, stiffness and pain of joints and other musculoskeletal inflammations.

Dosage: 2 tablets twice daily after meals with water.

Ostopain Ointment

Provides prompt relief in backache, frozen shoulder, sprains, sciatica, muscular pains, muscular cramps, muscles under stress and strain, swelling and stiffness of joints and other musculoskeletal affections.

Dosage: Apply a small quantity of the ointment on the affected part and rub with gentle hands till absorbed. Repeat two or three times a day.

Ostopain Tablets

Provides prompt relief from aches, pains, swelling and stiffness of joints and other musculoskeletal inflammations.

Dosage: 2 tablets twice daily after meals with water.

Ostopain Massage Oil

Provides prompt relief in backache, frozen shoulder, sprains, sciatica, muscular pains, muscular cramps, muscles under stress and strain, swelling and stiffness of joints and other musculoskeletal affections.

Dosage: Apply a small quantity of the oil on the affected part and rub with gentle hands till absorbed. Repeat two or three times a day.

Rheuma

It is a safe herbal anti-inflammatory and anti-rheumatic formulation. It inhibits prostaglandin synthesis, reduces tenderness of joints, relieves pain, swelling and stiffness fast without gastrointestinal side effects. A herbal NSAID (Non-steroidal anti-inflammatory drug) it is safe for prolonged use.

Dosage: 2 capsules twice daily after meals with water.

Roghan Babuna

Useful in gout, arthritis, backache and inflammation of the joints. Is also useful in otalgia.

Usage: Apply lukewarm oil on the affected part and wrap warm cotton over it. For otalgia instill 1 or 2 drops in the ears.

Roghan Dard

Useful in backache, frozen shoulder, sprains, sciatica, muscular pains, muscular cramps, muscles under stress and strain, swelling and stiffness of joints and other musculoskeletal affections.

Usage: Apply 2 or 3 times a day on the affected area and massage slowly till the oil is absorbed.

Roghan Malkangani

Strengthens the nerves. Gives relief in paralysis, facial paralysis, rheumatism, gout, sciatica and backache.

Usage: Apply lukewarm oil on the affected part and wrap warm cotton over it.

Salai-Guggul (Boswellia) Capsules

Medical investigations have shown that the gum-oleoresin, known as 'Boswellia', is beneficial in cases of rheumatoid arthritis with no side effects as those seen with traditional drugs of choice. Boswellia was also found to improve blood supply to the joints and restore integrity of vessels weakened by spasm. It is now an approved herbal medicine in India for use against osteoarthritis, rheumatoid arthritis, soft tissue rheumatism, low back pain, myositis and fibrositis.

Dosage: 2 capsules twice daily with water before meals.

Note: Aqarqarah Capsules, Ashwagandha Capsules, Calvit-C, Curcuma Capsules, Dehlvi Blue Balm, Dehlvi Falasafeen Capsules, Dehlvi Majun Falasafeen-SF, Guggul Capsules, Habbe Asgand, Habbe Azaraqi, Habbe Suranjan, Haldi Capsules, ImmunoHaldi, Jauhar Munaqqa, Jawarish Zaruni Ambari Banuskha Kalan, Majun Azaraqi, Majun Falasfa, Majun Talkh, Majun Ushba, Qurs Musakkin, Roghan Keemia, Roghan Suranjan, Roghan Surkh and Senna Capsules are also useful in "Rheumatism, Arthritis, Gout & Backache".

Osteoporosis

Osto-P

It is a unique complex herbal formula that helps support

bone metabolism and maintain bone density. It helps to slow bone loss and reduce the incidence of fractures. Osto-P being a natural source of calcium, eliminates the risk of abnormally high calcium levels in blood, thereby helps in preventing formation of calcium stones in the urinary tract. The presence of phytoestrogens helps in modulating the synthesis and utilization of various hormones to restore the hormonal balance without any side effects.

Dosage: 2 capsules twice a day with meals.

Note: Calvit-C and Pearl Calcium are also recommended in "Osteoporosis".

Sports Injuries

Haldi Capsules

Useful in sports injuries, joint pains and arthritis. It benefits the joints and the muscles by increasing the microcirculation to the affected area as well as by strengthening muscles, ligaments and bones.

Dosage: 2 capsules twice daily along with meals.

Note: Curcuma Capsules and ImmunoHaldi are also useful in "Sports Injuries".

Calcium Deficiency

Calvit-C

Contains natural calcium and Vitamin C. Calcium is essential for the growth and development of healthy bones and strong teeth. Pregnant women, nursing mothers, children, and adolescents may need more calcium than they normally get from eating calcium-rich foods. Calcium is also useful in osteoporosis and helps control blood cholesterol levels, assists nerve, muscle and digestive function, regulates heart muscle function and sleep. In growing children it is useful for healthy bones and optimal growth, for quick healing of fractures and in Calcium Deficiency Syndrome whereas Vitamin C lowers blood pressure and cholesterol levels, helps thin the blood and protect it against oxidation. Vitamin C also helps prevent atherosclerosis by strengthening the artery walls through its participation in the synthesis of collagen, and by preventing the undesirable adhesion of white blood cells to damaged arteries. An adequate intake of the vitamin is highly protective against stroke and heart attack.

Dosage: 2 capsules twice daily with water.

Pearl Calcium

Made from oyster shells, it contains natural calcium (38-45%) which is essential for the growth and development of healthy bones and strong teeth. It is also useful in osteoporosis and helps control blood cholesterol levels, assists nerve, muscle and digestive function, regulates heart muscle function and sleep. In growing children it is useful for healthy bones and optimal growth, during

lactation, for quick healing of fractures and in Calcium Deficiency Syndrome.

Dosage: 1 capsule twice daily with water. During pregnancy and lactation 2 capsules three times a day.

Diseases due to Impure Blood

Boils, Pimples and other Skin Eruptions

Arq Chiraita

Is a blood purifier. Prevents itch, boils, pimples and other skin eruptions. Also useful in syphilis and gonorrhoea.

Dosage: 125 ml along with 5 g. Majun Ushba.

Arq Mundi

Purifies the blood. Strengthens eyesight.

Dosage: 125 ml along with 25 ml Sharbat Unnab.

Arq Murakkab Musaffi Khoon

Is a blood purifier. Prevents itch, boils, pimples and other skin eruptions. Also useful in syphilis and gonorrhoea.

Dosage: 125 ml along with 25 ml Sharbat Unnab.

Arq Shahtara

Prevents itch, boils, pimples and other skin eruptions. Purifies the blood and reduces its heat.

Dosage: 125 ml along with 25 ml Sharbat Unnab.

Arq Ushba

Purifies the blood. Useful in syphilis and in rheumatism, gout, etc. due to syphilis.

Dosage: 125 ml along with 5 g. Majun Ushba.

FreshenUp

It is a natural product with anti-inflammatory, softening and anti-allergic actions and properties. Cools and tones the skin. A natural toner to reduce blemishes and oily skin. Cleanses skin, ridding it of dirt and giving a radiant glow. Also hydrates the skin to give a soft and supple look. Not just another rosewater spray, but "Beautiful Skin in a Pretty Bottle". It is wonderfully cooling and soothing on sunburns, dry winter-ravaged skin, or during a menopausal hot flash. A few sprays of FreshenUp can be added to bathwater for depression, grief, or insomnia. Due to its astringent, anti-bacterial, anti-septic and anti-inflammatory properties, it can be sprayed on abrasions, bruises, skin injuries, skin allergies, insect bites, etc.

Usage: Spray 2-3 times on the face, or as and when

required.

Habbe Musaffi Khoon

An effective blood purifier and a remedy for boils, scabies, acne, scrofula, pimples, gonorrhoea, syphilis and other skin eruptions due to impure blood. Also useful in gout.

Dosage: 2 pills to be taken in the morning with water.

Husne Jamal

Beautifies the face by removing dark circles, spots and wrinkles. Generates lustre on the face.

Usage: Mix the required quantity in water to form a paste. Apply at night and wash off in the morning with a mild soap.

Majun Ushba

A blood purifier. Effective remedy for boils, scabies, acne, scrofula, pimples, gonorrhoea, syphilis and other skin eruptions due to impure blood. Also useful in gout.

Dosage: 5 to 10 g. to be given in the morning and evening with water.

Musaffi Azam

Purifies the blood from all impurities and poisonous matter. Cures itch, boils, ulcers and other skin diseases. Also useful in syphilis and gonorrhoea.

Dosage: 5 g. in the morning and evening with water.

Neem Capsules

Neem provides an answer to many incurable diseases. One of the most powerful blood purifiers and detoxifiers in Herbal usage, Neem is often used to maintain healthy skin. Traditionally Neem has been used against heat-rash, acne, pimples, skin blemishes, boils, wounds, leprosy, skin disorders, leucoderma, stomach ulcers, chicken pox, etc. Its alterative properties help to clean, purify, and detoxify the blood, with a special effect also seen in liver conditions such as jaundice.

There is plenty of scientific backup for Neem's immune enhancement properties as a booster of the macrophage's effectiveness. Scientific studies indicate that Neem boosts the immune system by energizing lymphocytes cells to respond to infection and other challenges to the body's immunity. Lowers blood sugar levels.

Dosage: 1 capsule twice daily after meals with water.

Sharbat Murakkab Musaffi Khoon

Is a blood purifier. Prevents itch, boils, pimples, epistaxis and other skin eruptions due to impure blood.

Dosage: 50 ml mixed with water.

Sharbat Unnab

Purifies the blood and reduces its heat. Also useful in cough and other diseases of the chest.

Dosage: 25 to 50 ml mixed with water.

Sharbat Ushba Khas

Purifies the blood. Prevents itch, boils, pimples and other skin eruptions. Also useful in burning sensation while urinating, syphilis and gonorrhoea.

Dosage: 25 to 50 ml in the morning mixed with water.

SkinClear Capsules

It is a herbal remedy that helps detoxify the body by removing toxins, which get accumulated in the blood as a result of everyday exposure to environmental pollution, chemical residues in food and water. SkinClear Capsule is useful in all types of skin diseases through blood purification. It improves complexion and gives a natural glow to the skin.

Dosage: 2 capsules twice daily.

SkinClear Syrup

An effective blood purifier and an effective remedy for boils, acne, scrofula, pimples, heat rashes and itching, epistaxis, measles, burning sensation in urination, gonorrhoea, syphilis and other skin eruptions due to impure blood. Also improves the complexion and skin condition. Can also be used as a preventive against conditions arising out of change of season. With the onset of summers when incidence of Malaria is high it can be given as a prophylactic dose.

Dosage: 10 ml in the morning and evening with water.

SkinClear-SF

The same benefits of SkinClear Syrup in a sugar free form.

Dosage: 10 ml in the morning and evening with water.

Note: Itrefal Shahtara, Karela Capsules, Majun Chobchini, Majun Musaffi Khas, Marham Kafoori, Marham Raal and Roghan Neem are also recommended in "Boils, Pimples and other Skin Eruptions".

Eczema

EczeCream

Helps relieve itching of irritated skin, provides soothing and moisturizing relief, and helps prevent the recurrence of extra dry skin. It also helps subside redness of the affected skin, controls the formation of blisters and the oozing fluid as well as formation of crusts and dry scaly skin.

Usage: Apply required quantity of ointment on the affected skin twice a day.

Note: Majun Musaffi Khas, Majun Ushba, SkinClear Capsules, SkinClear Syrup, SkinClear-SF, Neem Capsules and Roghan Neem are also recommended in "Eczema".

Psoriasis

Psoro-Aid Ointment

Helps soothe affected skin and reduce the dryness which accompanies the build-up of skin on psoriatic plaques. Also helps reduce inflammation, remove built-up scale, reduce skin turn over, and clear affected skin of plaques.

Usage: Apply required quantity of ointment on the affected skin twice a day.

Wounds

Marham Kafoori

Effective for such wounds which cause a lot of pain and burning sensation and also cures burning welks from which yellow fluid keeps on oozing.

Usage: Thinly spread on a piece of cloth and apply on wounds and welks after washing them first with neem water (prepared by boiling neem leaves in water). Repeat for several days till completely cured.

Marham Raal

It heals all types of wounds and stops pus formation.

Usage: Thinly spread on a piece of cloth and apply on wounds and welks after washing them first with neem water (prepared by boiling neem leaves in water). Repeat for several days till completely cured.

Scrofula

Itrefal Shahtara, Kushta Qarnulail, Majun Ushba, SkinClear Syrup and SkinClear-SF are recommended in "Scrofula".

Vitiligo

Derma-Aid Ointment

In vitiligo, melanoblasts (pigment-forming cells) do not function properly. It exerts a purely local action with a specific effect on the arterioles of the sub-capillary plexuses in the skin, which are dilated so that the plasma is increased in this area. The skin becomes red and the melanoblasts (pigment-forming cells) are stimulated. After regular application of this ointment, the skin tends to attain its normal colour.

Usage: Apply required quantity of ointment on the white patches twice a day and expose to sunlight.

Roghan Babchi

Useful in vitiligo.

Usage: Apply on white spots and expose to sunlight.

Safuf Bars

Useful in vitiligo (leucoderma).

General Debility

Amleena

Contains natural vitamins and is specially rich in Vitamin 'C'. Also contains carbohydrates, proteins and minerals which provide energy and supplement Protein Energy Malnutrition (PEM). The special herbal formula provides required sedative elements that relax strained muscles and soothe whole body. Ideal for people involved in academic activities such as students, scientists, advocates, accountants and engineers. The prolonged mental exercise leaves sort of vacant mindedness and induces heaviness, sure signs of mental fatigue. It is beneficial for sportsmen, labourers, housewives, etc., who need lots of muscular energy. Also recommended in loss of memory, stress, strain and fatigue, lassitude, inertness and apathy, insomnia, anorexia, weakness of eyesight and bronchitis. On the whole, AMLEENA is a 'total body nourisher from head to toe'.

Dosage: 20 g to be given in the morning with breakfast. Tastes good if spread on bread-slices.

Arq Maullaham Do Atisha

It is a well known tonic for the heart, brain and nerves. It is specially formulated for replenishing the lost vital forces and energy to meet the natural urges of both the male and female. It soothes shattered nerves, improves digestion and increases formation of pure and healthy blood. It also improves assimilation of waste, restores health, builds a strong body, maximises dietary nutrition, raises body resistance and hastens convalescence. It is a general tonic for all chronically wasting diseases, anaemia, general debility and exhaustion with lack of vitality. It also activates the endocrine system stimulating the functions of the pituitary, thyroid glands and testes thereby increasing their specific secretion. It is also a protein rich diet supplement and improves the liver and stomach functions. Gives vitality in old age. Recommended in winters for both males and females of any age.

Dosage: A daily dose of 50 ml in the morning or 25 ml twice a day in the morning and evening with fresh juice or water.

Arq Maullaham Khas

It is a well known tonic for the heart, brain and nerves. It is specially formulated for replenishing the lost vital forces and energy to meet the natural urges of both the male and female. It soothes shattered nerves, improves digestion and increases formation of pure and healthy blood. It also improves assimilation of waste, restores health, builds a strong body, maximises dietary nutrition, raises body resistance and hastens convalescence. It is a general tonic for all chronically wasting diseases, anaemia, general debility and exhaustion with lack of vitality. It is also a protein rich diet supplement and improves the liver and stomach functions. Gives vitality in old age. Recommended in winters for both males and females of any age.

Dosage: A daily dose of 50 ml in the morning or 25 ml twice a day in the morning and evening with fresh juice or water.

Ashwagandha Capsules

Highly esteemed as an adaptogen and a rejuvenating herb, which is capable of imparting long life, youthful vigour and good intellectual powers. Used by both men and women, it acts to calm the mind and promote sound, restful sleep. As an adaptogen it promotes the body's ability to maintain homeostasis and resist stress. It prevents or minimizes imbalance that may lead to disease, whether from poor diet, lack of sleep, mental or physical strain, or chemical toxins in the environment. It is especially beneficial in stress related disorders such as hypertension, diabetes, general debility, etc. As a rejuvenative it helps maintain proper nourishment of the tissues, particularly muscle and bone, while supporting the proper function of the adrenals and reproductive system. Also useful in rheumatoid arthritis and helps recovery from chronic illness. Ashwagandha enjoys the reputation in the West as an aphrodisiac. It is therefore an excellent remedy for infertility and helps in increasing the sense of

well-being and improves sexual performance and is also useful in spermatorrhoea. It is recommended for erectile dysfunction and seminal debility.

Dosage: 1 capsule twice daily before meals with water.

Dehlvi Kalonji Oil

Useful in general lethargy. Increases formation of pure and healthy blood. Useful during pregnancy and lactation. Increases appetite, improves digestion, hastens convalescence and is also useful in general debility. It is useful for every member of the family for daily consumption.

Dosage: With the pack.

Dehlvi Majun Kalonji

Useful in general lethargy. Increases formation of pure and healthy blood. Useful during pregnancy and lactation. Increases appetite, improves digestion, hastens convalescence and is also useful in general debility. It is useful for every member of the family for daily consumption.

Dosage: With the pack.

Dehlvi Natural Health Tonic

It is a comprehensive tonic for men, women and children. It improves appetite, digestion and assimilation, restores health, builds a strong body, provides energy, removes physical & mental exhaustion due to overwork, soothes shattered nerves, accelerates circulation of blood and provides extra energy and vitality. It also provides a protein rich diet supplement and improves the liver and intestinal functions. It raises body resistance and promotes rapid recovery after illness. It is also recommended for women who have been weakened by frequent child bearing. As **Dehlvi Natural Health Tonic** is non-hormonal, it is completely safe for daily use.

Dosage: 20 ml before breakfast and evening meal. Children should be given between 5 ml and 10 ml

Dehlvi Natural Health Tonic-SF

The same benefits of Dehlvi Natural Health Tonic in a sugar free form.

Household Products

Apple Cider Vinegar (Seb Sirka)

Apple Cider Vinegar helps the stomach in digestion by breaking down the coarse fibers in meat and vegetables. It is also given as an antidote to alkaline poisoning, and is applied externally to treat acne, ringworms, lice and alopecia (baldness). Apple cider vinegar increases HDL (good cholesterol) and reduces levels of triglycerides. It also contains magnesium, a mineral that works to relax blood vessel walls and thus lower high blood pressure. Also useful in obesity. Dehlvi raw, unfiltered and unpasteurized Apple Cider Vinegar contains the intact enzymes formed through the fermentation process. It does not undergo the extreme heating process of pasteurisation, which kills off the good bacteria. These living enzymes are largely responsible for the healing, restorative properties of vinegar. When ingested, it treats acne, acid reflux, cholesterol, constipation and high blood pressure.

Dosage: With the pack.

Arq Ajeeb

Given internally it gives immediate relief in flatulence, nausea, vomiting, dyspepsia, gastralgia, diarrhoea, cholera, colic, catarrh and cold. It is a soothing application in itching due to insect bites, migraine and headaches.

Dosage & Usage: In the pack.

Dehlvi Blue Balm

Useful in headaches, cold and catarrh, chest congestion, sore throat and neuralgia.

Usage: Apply on the affected part.

Dehlvi Natural Honey

The benefits of honey go beyond its great taste. A great natural source of carbohydrates which provide strength and energy to our bodies, honey is known for its effectiveness in instantly boosting the performance, endurance and reduce muscle fatigue of athletes. A spoon of honey should be taken before going to school or for a workout. All Natural, No sugars added in the honey.

Dosage: 10 ml daily.

Dehlvi Talbina

'Aisha (*RadiAllahu 'anha*) used to say, "I heard the Messenger ﷺ saying, 'The Talbina gives rest to the heart of the patient and makes it active and relieves some of his sorrow and grief.' " (Sahih al-Bukhari).

Talbina is useful in convalescence and increases immunity in the body. Also useful in diseases of the heart and high cholesterol. Useful in constipation and beneficial for lactating ladies or pregnant ladies as well as infants. Strengthens the digestive system of infants.

Dosage: Heat 1 cup water or milk and add 2 Tablespoon (30 g) Talbina. Cook for about 20 minutes. Constantly stir

to avoid lumpiness. Stirring regularly top up with milk to make 200 ml. Add Dehlvi Multiflora Honey, raw sugar or jaggery if not diabetic. For better results and taste, add dry fruits and/or fresh fruits.

Nauras

Combination of 9 highly potent herbs, natural detoxifier, strengthens immune system, helps maintain a healthy heart, reduces the effects of stress and nervousness, promotes cardiac functioning, regulates blood pressure, adaptogen and rejuvenating, increases longevity and youthful vigour, beneficial in hypertension, general debility, etc., increases libido and sexual performance, reduces depression and anxiety, protects liver, cleanses urinary tract, relieves indigestion, bloating, heartburn, constipation, acidity and improves mental concentration and alertness, adds shine to skin and hair.

Dosage: 20-30 ml twice daily. 20-30 ml of water can be added according to taste. Honey may also be added.

Pudinol

It is an effective first aid in all kinds of pains, wounds, sores and swelling. Given internally, it gives immediate relief in diarrhoea, indigestion, dysentery and stomach upsets. It is a soothing application in insect bites, burns, scalds and headaches. Useful in early stages of cholera to check vomiting and purging and to stimulate the digestive system. When Cholera epidemic is widespread it can be given as a prophylactic dose.

Dosage & Usage: In the pack.

Saffron

Saffron is used as a nervine sedative and in fevers, melancholia and enlargement of the liver. It is also used in spasmodic cough and asthma and in catarrhal affections of children. It is also given in anaemia, chlorosis and seminal debility. It also improves circulation and strengthens the heart, brain and liver. Saffron induces menstruation, treats period pain and chronic uterine bleeding. Saffron contains a chemical called "crocin", which has been determined to increase the oxygen content of the blood, which may in turn reduce plaque build up in arteries. Additional human studies have indicated that saffron has powerful antioxidant properties; that is, it helps to protect living tissues from free radicals and other harmful effects of oxidation.

Dosage: 250 mg to 500 mg.

Triphala Capsules

Indicated in malarial fever, blood impurities, flatulence, dyspepsia, colic pain and dropsy. It also improves appetite and removes constipation. Also improves eyesight.
